BACKGROUND:

Summary

On March 8, 2022 [Agenda Item No. 11.3], the District's Board approved a Cooperative Funding Agreement ("Original Agreement") by which the District will contribute up to Three Million Five Hundred Fifty-Five Thousand Dollars (\$3,555,000) to the City for construction of the Box Springs MDP Line D, Stage 1 ("Project") as part of a City administered public works construction contract to provide the necessary flood control and drainage improvements for immediate adjacent areas within the City.

Due to an unanticipated conflict with an AT&T concrete encased conduit facility which required the implementation of a phased construction approach to ensure the successful completion of a fully operational storm drain system and to complete its relocation, the Project construction costs increased from Three Million Five Hundred Fifty-Five Thousand Dollars (\$3,555,000) to Five Million One Hundred Fourteen Thousand Fifty-Six Dollars (\$5,114,056). In collaboration with the City, the District agrees to contribute an additional amount of Five Million One Hundred Fourteen Thousand Fifty-Six Dollars (\$5,114,056) toward the construction of the Project.

This Agreement supersedes the Original Agreement in its entirety and sets forth the terms and conditions by which the District will contribute a total amount not to exceed Eight Million Six Hundred Sixty-Nine Thousand Fifty-Six Dollars (\$8,669,056) to support the City's efforts to construct the Project.

Upon completion of the drainage facility construction, the City will assume ownership, operation, and maintenance of the Project in the interim until such time as the District assumes ownership, operation and maintenance in accordance with the terms and conditions as set forth in the Agreement. The City will retain ownership and maintenance of certain inlets, connector pipes, and storm drains laterals that are thirty-six inches (36") or less in diameter within City-held rights of way.

County Counsel has approved the Agreement as to legal form, and the City has executed the Agreement.

Environmental Findings

The Agreement is exempt from CEQA pursuant to CEQA Guidelines Section 15061(b)(3), the "Common Sense Exemption," which provides, "The activity is covered by the common-sense exemption that CEQA applies only to projects which have the potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA." The Agreement does not authorize to any extent whatsoever actual physical development of the underlying property. Such development, if it occurs at all, will be the result of subsequent actions subject to CEQA review by the City prior to construction. The Agreement merely establishes the terms by which the District will contribute funding to the City for the construction of the referenced facilities. It can be seen with certainty that there is no possibility the Agreement will have a significant effect on the environment. Therefore, nothing further is required under CEQA.

Impact on Residents and Businesses

The District's financial contribution toward the City's Project is funded by ad valorem property tax revenue and entails no new fees, taxes nor bonded indebtedness to residents and businesses. Upon construction completion, the facilities will alleviate flooding for the surrounding roadways and communities and will benefit residents and businesses in the area.

Additional Fiscal Information

Pursuant to the Implementing Agreement for the Western Riverside County Multiple Species Habitat Conservation Plan ("MSHCP") executed on June 22, 2004, the District is a participating agency. The District is making a payment to the Western Riverside County Regional Conservation Authority ("RCA") for up to 3% of the total capital costs as required mitigation for the construction of flood control facilities in cooperation with and on behalf of the City. The MSHCP mitigation fee is based on the engineers estimated project cost, however, the actual 3% payment will be based on the Project's lowest responsive contract bid price for each phase. The actual mitigation payment that will be made by the District may be reduced based on acquisition of replacement habitat for the benefit of Covered Species, as defined in the Implementing Agreement and the MSHCP. The Agreement will not affect any MSHCP conservation areas or conflict with and MSHCP policies.

The District is providing an additional \$5,114,056 in funding to the City for Project construction. Sufficient funding will become available in the District's Zone 1 FY 2025/2026 budget and will be included in the proposed budget in future years as appropriate. Future operations and maintenance costs associated with of the District maintained storm drain facilities will accrue to the District.

The procedure shall be reviewed and approved by DISTRICT prior to conducting the final inspection.

25. Not permit any change to, or modification of, DISTRICT and CITY approved IMPROVEMENT PLANS that would result in a change of functionality or maintainability of PROJECT without DISTRICT's prior written permission and consent. Failure to do so shall be deemed a material breach of this Agreement and shall authorize and constitute authority for DISTRICT, at its sole discretion, to provide written notice to CITY that DISTRICT is unable to a) perform its obligations hereunder and b) to accept responsibility for ownership,

operation and maintenance of STAGE 1 due, either in whole or in part, to said breach of this Agreement.

29. Inspect each PHASE's construction or cause each PHASE's construction to be inspected by its construction manager, and pay all costs associated therewith. In the event CITY wishes to utilize DISTRICT's construction inspection, materials testing, and construction survey services for a PHASE, CITY shall provide DISTRICT with a written request (Attn: Special Projects) for such services. However, CITY will continue to serve as construction contract manager.

30. Perform all survey and construction staking work as needed for PROJECT as specified herein.

31. Furnish, or cause its construction manager to furnish, all construction survey and materials testing services necessary to ensure construction of each PHASE is accomplished in accordance with DISTRICT and CITY approved IMPROVEMENT PLANS.
