C.E.O. RECOMMENDATION: Approve

BACKGROUND:

At the direction of the County of Riverside Board of Supervisors, L&LMD No. 89-1-C was formed in 1994 by Resolution No. 94-389 and authorized to levy an annual assessment to pay for the installation and maintenance of landscaping and streetlights within L&LMD No. 89-1-C. Since that date, L&LMD No. 89-1-C has approved and included the following improvements such as the maintenance and servicing of landscaping, trails, storm water runoff catch basin filters (fossil filters), bio-swales, streetlights, traffic signals, bridge lights, and graffiti abatement, all zone specific.

Landscaping and Lighting Maintenance District No. 89-1-Consolidated (District) maintains and services 181 locations throughout Riverside County. The District contains 89 separate assessment zones, and 92 street lighting assessment zones as described in Attachment A. Zones 3, 11, 15, 24, 26, 31, and 44 have more than one location per a zone.

The combined Annual Engineer's Report for Fiscal Year (FY) 25/26 was prepared in compliance with the requirement of Article 4, Chapter 1 of the Landscaping and Lighting Act of 1972, which is Part 2, Division 15 of the California Streets and Highways Code. The County initiates proceedings for the annual levy of assessments by passing a resolution, which proposes the annual levy under the Landscaping and Lighting Act of 1972. This resolution also describes the improvements, describes the location of the District and finally orders an engineer, who is a registered professional engineer certified by the State of California, to prepare and file a detailed report. The combined Annual Engineer's Report for Fiscal Year (FY) 25/26 were and associated resolutions were presented on the July 1, 2025 County of Riverside Board of Supervisors Agenda as Item 3.49.

The proposed assessments for Zones 1, 3, 8, 10, 11, 15, 19, 24, 26, 28, 29, 31, 36, 39, 43, 44, 45, 53, 55, 57, 58, 66, 68, 72, 74, 83, 84, 86, 87, 89, 91, 92, 94, 97, 100, 103, 109, 110, 112, 119, 123, 124, 135, 138, 145, 146, 148, 149, 152, 153, 154, 155, 157, 160, 161, 162, 164, 166, 168, 171, 172, 174, 175, 180, 187, 188, 190, 191, 192, 193, 195, 197, 198, 199, 200, 202, 204, 206, 207, 211, 213, 214, 215, 216, 218, 220, 225, 242 and 245, and Street Lighting Zones 2, 3, 4, 9, 11, 12, 13, 14, 16, 20, 21, 22, 25, 29, 30, 31, 36, 37, 38, 42, 43, 44, 45, 46, 47, 48, 52, 53, 54, 55, 56, 57, 58, 61, 64, 65, 66, 67, 68, 72, 74, 75, 76, 78, 81, 82, 85, 89, 95, 97, 99, 101, 103, 104, 107, 108, 109, 110, 113, 115, 116, 117, 119, 121, 122, 123, 124, 127, 129, 132, 133, 134, 135, 136, 137, 138, 139, 141, 143, 146, 147, 148, 149, 151, 152, 154, 155, 156, 157, 158, 159 and 166 of L&LMD No. 89-1-C are described in Attachment A.

Pursuant to the Landscaping and Lighting Act of 1972 and Resolution No. 2025-130 a public hearing is scheduled for Tuesday July 29, 2025 to receive testimony regarding the assessment levy for FY 25-26 for Zones 1, 3, 8, 10, 11, 15, 19, 24, 26, 28, 29, 31, 36, 39, 43, 44, 45, 53, 55, 57, 58, 66, 68, 72, 74, 83, 84, 86, 87, 89, 91, 92, 94, 97, 100, 103, 109, 110, 112, 119, 123, 124, 135, 138, 145, 146, 148, 149, 152, 153, 154, 155, 157, 160, 161, 162, 164, 166, 168, 171, 172, 174, 175, 180, 187, 188, 190, 191, 192, 193, 195, 197, 198, 199, 200, 202, 204, 206, 207, 211, 213, 214, 215, 216, 218, 220, 225, 242 and 245, and Street Lighting Zones 2, 3, 4, 9, 11, 12, 13, 14, 16, 20, 21, 22, 25, 29, 30, 31, 36, 37, 38, 42, 43, 44, 45, 46, 47, 48, 52, 53, 54, 55, 56, 57, 58, 61, 64, 65, 66, 67, 68, 72, 74, 75, 76, 78, 81, 82, 85, 89, 95, 97, 99, 101, 103, 104, 107, 108, 109, 110, 113, 115, 116, 117, 119, 121, 122, 123, 124, 127, 129, 132, 133, 134, 135, 136, 137, 138, 139, 141, 143, 146, 147, 148, 149, 151, 152, 154, 155, 156, 157, 158, 159 and 166 of L&LMD No. 89 1 C. Notice of the public hearing was given by publication of a certified copy of Resolution No. 2025-131 in The Press Enterprise more than ten (10) days prior to the scheduled public hearing date of Tuesday, July 29, 2025.

Adoption of Resolution No. 2025-132 confirms the assessment levy, as indicated in the Engineer's Report for FY25/26 for L&LMD No. 89-1-C and orders the placement of the annual assessment on the County of Riverside's Assessment Roll.

Impact on Residents and Businesses

L&LMD No. 89-1-C is a County-wide district; however, only the property owners within the boundaries of each Zone within L&LMD No. 89-1-C are impacted by the assessments collected for the maintenance of the improvements within these zones, as described in Attachment A and the Engineer's Report.

In November 1996, California voters passed Proposition 218, Right to Vote on Taxes Act, which added Articles XIII C and XIII D to the California Constitution. A County may levy annual assessments for an assessment district after complying with the requirements of the Landscaping and Lighting Act of 1972, and the provisions of Proposition 218 Right to Vote on Taxes Act. Depending on the time the Zones were annexed into L&LMD No. 89-1-C and the type of improvements, the mailed assessment ballot proposition approved by the property owners provides for these assessments and that either no inflation factor was established (Zones 1 and 3), a two percent (2%) inflation factor was established, or the annual assessment may be increased each year by the greater of two percent (2%) or the cumulative percentage increase, if any, in the Consumer Price Index (CPI-U), or the Consumer Price Index for electricity (CPI-UE "for electricity"), for the Riverside-San Bernardino-Ontario Standard Metropolitan Statistical Area (the "Index") as the Index stands as of March of each calendar year.

SUPPLEMENTAL:

Additional Fiscal Information

The annual budget for FY 24/25 totals $2,256,155. For FY25/26 the inflation factor, when appropriate, will be two percent (2%).

The inflation factor affects the maximum assessment, which is the maximum allowable assessment to be placed on a parcel, acre, or equivalent dwelling unit (EDU) within the L&LMD No. 89-1-C. Zones may be assessed at the maximum assessment if needed; however, some zones are assessed less depending on overall annual maintenance costs and existing reserves, if any.

89-1-C") for FY 2025-26 to pay the costs of the installation and planting of landscaping; the installation of multi-purpose trails; the installation of fencing; the installation of stormwater runoff catch basin filters; the installation of irrigation or electrical facilities; and the maintenance and servicing of such landscaping, multi-purpose trail, fencing, stormwater runoff catch basin filter, streetlight, traffic signal, and bridge light improvements, including the provision of electricity for streetlights, traffic signals, and bridge lights, and graffiti abatement within the public rights-of-way, for July 29, 2025, at the meeting room of the Board of Supervisors at 4080 Lemon Street, 1st Floor, Riverside, California; and

WHEREAS, notice of said public hearing was duly published as required by Resolution No. 2025-130 and Section 22626(a) of the Streets and Highways Code; and

WHEREAS, at the time and place of said public hearing, as set forth in Resolution No. 2025-131, the Board of Supervisors held the public hearing and afforded all interested persons an opportunity to testify and be heard, and considered all oral statements and all written protests or communications made or filed by any interested persons and at the conclusion of said hearing determined that a majority protest had not been received; and

WHEREAS, the Board of Supervisors may proceed, pursuant to Section 22631 of the Streets and Highways Code, to adopt a resolution confirming the diagram and assessment, either as originally proposed, or as changed by it, and the adoption of such a resolution shall constitute the levy of an assessment on all assessable lots and parcels of land within L&LMD No. 89-1-C for FY 2025-26.

NOW, THEREFORE, BE IT RESOLVED, FOUND, DETERMINED, AND ORDERED by the Board of Supervisors of the County assembled in regular session on July 29, 2025 as follows:

Section 1. Findings. That the Board of Supervisors finds:

(a) the preceding recitals are correct;

ENGINEER'S REPORT FOR FISCAL YEAR 2025-2026

LANDSCAPING AND LIGHTING ACT OF 1972,

DIVISION 15 OF THE STREETS AND HIGHWAYS CODE OF THE STATE OF CALIFORNIA

Pursuant to the provisions of Section 22565 through 22574 of the Landscaping and Lighting Act of 1972, said act being Part 2 of Division 15 of the Streets and Highways Code of the State of California, Section 4 of Article XIII(D) of the California Constitution, and direction from the Board of Supervisors of Riverside County, California, submitted herewith is the Engineer's Report for Landscaping and Lighting Maintenance District No. 89-1-Consolidated ("Report"), consisting of five parts.

WHEREAS, the Board of Supervisors of the County of Riverside, State of California, did, pursuant to the provisions of the Landscaping and Lighting Act of 1972, being Division 15 of the Streets and Highways Code of the State of California, adopt Resolution No. 94-389 to initiate proceedings to form a special assessment district known and designated as:

Landscaping and Lighting Maintenance District No. 89-1-Consolidated
("L&LMD No. 89-1-C" or "District"); and,

WHEREAS, the Board of Supervisors, did direct the appointed Engineer to make and file an annual Report, in accordance with Article 4 (commencing with Section 22565) of Chapter 1 of Part 2 of Division 15 of the Streets and Highways Code, being an article of the aforementioned Landscaping and Lighting Act of 1972.

WHEREAS, Section 22567 of said Article 4 states the Report shall consist of the following:

a. Maintenance plans for the improvements
b. An estimate of the costs of the maintenance of the improvements
c. A diagram for the assessment district
d. An assessment of the estimated costs of the maintenance of the improvements

I do hereby assess and apportion the total amount of the costs and expenses upon several parcels of land within said designated area liable therefor and benefited thereby, in proportion to the estimated benefits that each parcel receives, respectively, from said services.

NOW, THEREFORE, I, the appointed ENGINEER, acting on behalf of the County of Riverside Transportation and Land Management Agency, pursuant to the Landscaping and Lighting Act of 1972, do hereby submit the following:

1. Pursuant to the provisions of law, the costs and expenses of the District have been assessed upon the parcels of land in the District benefited thereby in direct proportion and relation to the estimated benefits to be received by each of said parcels. For particulars as to the identification of said parcels, reference is made to the Assessment Diagrams, reduced copies of which are included herein.

2. As required by law, a Diagram is filed herewith, showing the District, as well as the boundaries and dimensions of the respective parcels and subdivisions of land within said District as the same exist each of which subdivisions of land or parcels or lots, respectively, have been given a separate number upon said Diagram and in the Assessment Roll contained herein.

3. The separate numbers given the subdivisions and parcels of land, as shown on said Assessment Diagram and Assessment Roll, correspond with the numbers assigned to each parcel by the Riverside County Assessor. Reference is made to the County Assessment Roll for a description of the lots or parcels.

4. There are no parcels or lots within Zones 1, 3, 8, 10, 11, 15, 19, 24, 26, 28, 29, 31, 36, 39, 43, 44, 45, 53, 55, 57, 58, 66, 68, 72, 74, 83, 84, 86, 87, 89, 91, 92, 94, or 97 that are owned by a federal, state or other local governmental agency that will benefit from the services to be provided by the assessments to be collected.

In conclusion, it is my opinion that the assessments for Landscaping and Lighting Maintenance District No. 89-1-Consolidated have been spread in direct accordance with the benefits that each parcel receives from the items being financed.

DATED this 23rd day of June, 2025.

EXECUTIVE SUMMARY

A. INTRODUCTION

This Combined Annual Engineer's Report is prepared in compliance with the requirements of Article 4, Chapter 1, of the Landscaping and Lighting Act of 1972 ("1972 Act"), which is Part 2, Division 15 of the California Streets and Highways Code.

Since the Passage of Proposition 218, Right to Vote on Taxes Act, which added Articles XIII(C) and XIII(D) to the California Constitution, new procedures must be followed to levy annual assessments under the 1972 Act.

Proposition 218 requires that all annual assessments be supported by a detailed Engineer's Report ("Report") prepared by a registered professional engineer. The Report includes the information required by law.

The 1972 Act provides for the annual levy of assessments for the Landscaping and Lighting Maintenance District No. 89-1-Consolidated ("District") for the express purpose of installing, maintaining, and servicing of landscaping, including trees, shrubs, grass, other ornamental vegetation, and drainage devices, trails, streetlights, traffic signals, bridge lights, and graffiti abatement improvements. The costs associated with the installation, maintenance, and servicing of the improvements may be assessed against those properties which are specially benefited by the installation, maintenance, and servicing. A County may levy annual assessments for an assessment district after complying with the requirements of the 1972 Act, and the provisions in Proposition 218.

The County initiates proceedings for the annual levy of assessments by passing a resolution, which proposes the annual levy under the 1972 Act. This resolution also describes the improvements, describes the location of the District, and finally orders an engineer, who is a registered professional engineer, certified by the State of California, to prepare and file a detailed report.

The Report prepared by the engineer must include maintenance plans for the improvements. The Report must also include an estimate of the costs of the improvements, a diagram, i.e., map of the District showing the boundary of the District, and an assessment of the estimated costs of the improvements against the parcels or lots which benefit from the improvements. Once the Report is completed, it is presented to the County Board of Supervisors for its review and approval as presented, or it may be modified and approved.

After the Report is preliminarily approved, the County Board of Supervisors may adopt a Resolution of Intention, which declares its intent to levy the annual assessments against parcels within the existing District, describes the improvements, and refers to the Report for details of the District. The Resolution of Intention also sets a time and place for a hearing on the annual levy of assessments for the District.

In accordance with Proposition 218, property owners of the assessed parcels must approve any new or increased assessments. Zones included in this Report have been previously approved by property owners in accordance with Proposition 218.

B. BREAKDOWN

Currently there are 203 locations within 181 L&LMD No. 89-1-C Zones: 92 street lighting assessment zones (92 locations) and 89 assessment zones (111 locations).

There are 97 maintained locations; 3 dormant locations; and 11 locations within the County which have no improvements and are, therefore, not yet maintained; exclusive of street lighting zones.

The Combined Annual Engineer's Report will cover the 181 existing Zones. New or pending Zones will be presented to the Board of Supervisors under separate reports.

C. CHANGES TO DISTRICT ZONES

For Fiscal Year 2025-26, the following zones/locations/tracts are changing status from Not Yet Maintained to Maintained:

Zone 161 and Street Lighting Zone 123

For Fiscal Year 2025-26, the following zones/locations/tracts are changing status from Maintained to Not Yet Maintained:

Zone 103 and Zone 218

D. DESCRIPTION OF IMPROVEMENTS AND SERVICES

The improvements for the District and Zones may be generally described as follows:

> The installation, maintenance and servicing of ornamental structures, fences, multi-purpose trails, landscaping, including trees, shrubs, grass, other ornamental vegetation, drainage devices (such as bio swales and stormwater runoff catch basin filters), including irrigation systems, street lighting, traffic signals and bridge lights, located in public places within the boundaries of the Zones. Maintenance means the furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including: repair, removal, or replacement of all or part of any improvement; providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury; the removal of trimmings, rubbish, debris, and other solid waste; the cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti. Servicing means the furnishing of electricity for the lighting and operation of any ornamental structures, landscaping, and appurtenant facilities; water for the irrigation and control of the landscaping, and the maintenance of any of the ornamental structures, landscaping and appurtenant facilities.

Article XIII(D) of the California Constitution defines "maintenance and operation expenses" as "the cost of rent, repair, replacement, rehabilitation, fuel, power, electrical current, care and supervision necessary to properly operate and maintain a permanent public improvement". The District's funding includes, but is not limited to, the removal, repair, replacement and appurtenances, electrical energy, supplies, engineering and incidental costs relating to the maintenance and operation of the improvements benefiting the District's parcels.

E. MAINTENANCE PLANS

Plans for the improvements for the Zones are voluminous and are not bound in this Report but by this reference are incorporated and made a part of this Report. The Plans for maintained zones are on file in the office of the Riverside County Transportation Department, 4080 Lemon Street, 2nd Floor, Riverside, CA 92501, where they are available for public inspection. Reduced maps of the maintained improvements are in Part IV, Assessment Diagrams of this Report.

PART II – METHOD OF APPORTIONMENT

Part II – Method of Apportionment

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, which include the construction, maintenance, and servicing of public lights, landscaping, dedicated easements for landscape use, and appurtenant facilities. The 1972 Act further provides that assessments may be apportioned upon all assessable lots or parcels of land within an assessment district in proportion to the estimated benefits to be received by each lot or parcel from the improvements rather than assessed value.

> *"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."*

The formula used for calculating assessments reflects the composition of the parcels and the improvements and services provided by the District to fairly apportion the costs based on the estimated benefit to each parcel.

In addition, Article XIII(D) of the California Constitution ("Article") requires that a parcel's assessment may not exceed the reasonable cost of the proportional special benefit conferred on that parcel. The Article provides that only special benefits are assessable, and the County must separate the general benefits from the special benefits conferred on a parcel. A special benefit is a particular and distinct benefit over and above general benefits conferred on the public at large, including real property within the district. The general enhancement of property value does not constitute a special benefit.

SPECIAL BENEFIT

The maintenance of landscaping, including stormwater runoff catch basin filters and bio-swales, multi-purpose trails, fencing, streetlights, traffic signals, bridge lights, and graffiti abatement provides direct and special benefit to those properties located within Landscaping and Lighting Maintenance District No. 89-1-Consolidated ("L&LMD No. 89-1-C" or "District").

Each and every lot or parcel within the District receives a particular and distinct benefit from the improvements over and above general benefits conferred by the improvements. First, the improvements were conditions of approval for the creation or development of the parcels. In order to create or develop the parcels, the County required the original developer to install and/or guarantee the maintenance of the improvements, and appurtenant facilities serving the lots or parcels. Therefore, each and every lot or parcel within the District could not have been developed in the absence of the installation and expected maintenance of these facilities.

In addition, the improvements continue to confer a particular and distinct special benefit upon parcels within the District because of the nature of the improvements. The proper maintenance of landscaping, including stormwater runoff catch basin filters and bio-swales, multi-purpose trails, fencing, streetlights, traffic signals, bridge lights, graffiti abatement, and appurtenant facilities specially benefit parcels within the District by moderating temperatures, providing oxygenation, attenuating noise from adjacent streets and controlling dust for those properties in close proximity to the landscaping. Improved erosion and water quality control, dust abatement, increased public safety (e.g., control sight distance restrictions and fire hazards), improved neighborhood property protection and aesthetics, controlling or restricting the

flow of traffic into and out of the development, increasing public safety for both pedestrians and the motoring public, and increasing traffic safety by improving visibility. The spraying and treating of landscaping for disease reduces the likelihood of insect infestation and other diseases spreading to landscaping located throughout the properties within the District. Streetlights also provide safety for pedestrians and motorists living and owning property in the District during the nighttime hours, and to assign rights-of-way for the safety of pedestrians and motorists by defining a specific path of travel during all hours of the day.

Streets are constructed for the safe and convenient travel of vehicles and pedestrians. They also provide an area for underground and overhead utilities. These elements are a distinct and special benefit to all developed parcels in the District. Streetlights are installed on and are for street purposes and are maintained and serviced to allow the street to perform to the standards it was designed.

Streetlights are determined to be an integral part of "streets" as a "permanent public improvement." One of the principal purposes of fixed roadway lighting is to create a nighttime environment conducive to quick, accurate, and increased visibility for the user of the facility. These factors, if attained, combine to improve traffic safety and achieve efficient traffic movement. Fixed lighting can enable the motorist to see detail more distinctly and to react safely toward roadway and traffic conditions present on or near the roadway facility.

The system of streets within the District is established to provide access to each parcel in the District. Streetlights provide a safer street environment for owners of the parcels served. If the parcels were not subdivided to provide individual parcels to owners within the District, there would be no need for a system of streets with streetlights. Therefore, the installation of streetlights is for the express, special benefit of the parcels within the District.

The proper maintenance of the landscaping, ornamental structures, and appurtenant facilities reduces property-related crimes (especially vandalism) against properties in the District through the screening of properties within the District from arterial streets.

Finally, the proper maintenance of landscaping, including stormwater runoff catch basin filters and bio-swales, multi-purpose trails, fencing, and graffiti abatement, and appurtenant structures improves the attractiveness of the properties within the District. This provides a positive visual experience each and every time a trip is made to or from the property and provides an enhanced quality of life and sense of well-being for property within the District.

Traffic signal assessments are based on traffic studies and/or trip counts. For specific zone benefits, see Part III Estimate of Costs and Expenses.

Because all benefiting properties within a given zone consist of a uniform land use, it is determined that all lots or parcels benefit equally from the improvements and the costs and expenses for the provision of electricity for the streetlights and traffic signals and the maintenance of landcaping, including stormwater runoff catch basin filters and bio-swales, multi-purpose trails, fencing, traffic signals, bridge lights, and graffiti abatement are apportioned on a per acre, per Equivalent Dwelling Unit (EDU), or per parcel basis.

Based on the benefits described above, landscaping, including stormwater runoff catch basin filters and bio-swales, multi-purpose trails, fencing, streetlights, traffic signals, bridge lights, and graffiti abatement are an integral part of the quality of life of the District. This quality of life is a special benefit to those parcels that are not government-owned parcels or easements, utility easements, or flood channel parcels. Government-owned parcels or easements, utility easements and flood channel parcels do not benefit from the improvements due to their use and lack of habitation on such parcels. Parcels of this nature are usually vacant narrow strips of land or flood control channels and therefore do not generate or

experience pedestrian or vehicular traffic. Nor do these types of parcels support dwelling units or other structures that would promote frequent use of the parcels by the traveling public. As a result of this lack of activity on such parcels they do not receive any benefit from landcaping, including stormwater runoff catch basin filters and bio-swales, multi-purpose trails, fencing, streetlights, traffic signals, bridge lights, and graffiti abatement and are not assessed.

Special Benefit of Landscaping and Lighting Maintenance District No. 89-1-Consolidated Authorized Improvements and Services:

- The installation and planting of landscaping, including trees, shrubs, grass and other ornamental vegetation;
- The installation or construction of statuary, fountains and other ornamental structures and facilities;
- The installation or construction of public lighting facilities, including, but not limited to, traffic signals;
- The installation or construction of any facilities which are appurtenant to any of the foregoing, or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks or paving, water irrigation, drainage or electrical facilities, and;

The maintenance or servicing, or both, of any of the foregoing.

GENERAL BENEFIT

The total benefit from the works of improvement is a combination of the special benefits to the parcels within the District and the general benefits to the public at large and to adjacent property owners. The portion of the total landscaping, including stormwater runoff catch basin filters and bio-swales, multi-purpose trails, fencing, streetlights, traffic signals, bridge lights, and graffiti abatement maintenance costs associated with general benefits will not be assessed to the parcels in the District but will be paid from other County Funds. Because the landcaping, including stormwater runoff catch basin filters and bio-swales, multi-purpose trails, fencing, streetlights, traffic signals, bridge lights, and graffiti abatement improvements are located immediately adjacent to properties within the District and are maintained solely for the benefit of the properties within the District, any benefit received by properties outside of the District will be in the proportions stated under Special Benefit. As a result, no property is assessed in excess of the reasonable cost of the proportional special benefit conferred on that property.

However, some traffic signal improvements provide both general and specific benefit. It was previously determined that the costs and expenses for the traffic signal improvements are less than the County's total maintenance cost. Percentages of the County's total maintenance costs were previously determined from budgets at the time of annexation by Riverside County Transportation Department. These percentages are noted on the applicable Fiscal Year 2025-26 budgets in Part III, Estimate of Costs and Expenses, for those Zones with traffic signal improvements. Therefore, only the portion of costs directly related to the special benefit of the traffic signal improvements will be assessed to the applicable Zones.

PART III – ESTIMATE OF COSTS AND EXPENSES

Part III – Estimate of Costs and Expenses

The cost estimate contains each of the items specified in Section 22569 of the 1972 Act.

The 1972 Act provides that the estimated costs of the improvements shall include the total cost of the improvements for the entire Fiscal Year (2025-26), including incidental expenses, which may include operating reserves.

The 1972 Act also provides that the amount of any surplus, deficit, or contribution be included in the estimated cost of improvements. The net amount to be assessed on the lots or parcels within the Zones is the total cost of installation, maintenance, and servicing with adjustments either positive or negative for reserves, surpluses, deficits, and/or contributions.

The inflation factor, for those zones with an inflation factor in place, may increase budgets for Zones, which have not been accepted for maintenance, as if assessed. However, the amount to levy may be credited resulting in a zero assessment.

Each succeeding fiscal year the maximum assessment for Zone 8 may be subject to an annual adjustment of two percent and the maximum assessment for Zones 10, 11, 15, 19, 24, 26, 28, 29, 31, 36, 39, 43, 44, 45, 53, 55, 57, 58, 66, 68, 72, 74, 83, 84, 86, 87, 89, 91, 92, 94, and 97 may be subject to an annual adjustment that is the greater of two percent or the cumulative percentage increase, if any, in the Consumer Price Index for all Urban Consumers (CPI-U) for All Items or the CPI-U for Electricity (as applicable) for the Riverside-San Bernardino-Ontario area ("Index") published by the Bureau of Labor Statistics of the United States Department of Labor. The annual CPI-U for All Items or CPI-U for Electricity adjustment will be based on the cumulative increase, if any, in the Index as it stands in March of each year over the base Index. Any increase larger than the greater of two percent, the CPI-U for All Items, or CPI-U for Electricity annual adjustment requires a majority approval of all the property owners within each of the benefit zones in the District.

There is no proposed increase in the maximum assessment per acre or per parcel in Zones 1 and 3 for Fiscal Year 2025-26, as these zones did not institute an inflation factor when established.

There is a two percent proposed increase in the maximum assessment per EDU in Zone 8 for Fiscal Year 2025-26, as this zone limited the inflation factor to two percent when established.

There is a two percent proposed inflationary increase in the maximum assessment per acre, per EDU or per parcel as applicable in Zones 10, 11, 15, 19, 24, 26, 28, 29, 31, 36, 39, 43, 44, 45, 53, 55, 57, 58, 66, 68, 72, 74, 83, 84, 86, 87, 89, 91, 92, 94, and 97 for Fiscal Year 2025-26, which is consistent with ballot propositions approved by the qualified electors when establishing said zones.

Please see Appendix A for the individual budget pages, prepared by County staff, for each Zone covered in Volume 1 of the Report.

PART IV – ASSESSMENT DIAGRAMS

Part IV – Assessment Diagrams

Reduced copies of the Assessment Diagrams are filed herewith and made a part hereof.

If any parcel submitted for collection is identified by the County Auditor-Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel number will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if any parcel has changed subsequent to the date of this Report, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate.

Information identified on these maps was received from several sources including the owner/developer, Riverside County Transportation and Land Management Agency, and the Riverside County Assessor.

Please see Appendix B for the Diagrams of each Zone covered in Volume 1 of the Report.

ENGINEER'S REPORT FOR FISCAL YEAR 2025-2026

LANDSCAPING AND LIGHTING ACT OF 1972,

DIVISION 15 OF THE STREETS AND HIGHWAYS CODE OF THE STATE OF CALIFORNIA

Pursuant to the provisions of Section 22565 through 22574 of the Landscaping and Lighting Act of 1972, said act being Part 2 of Division 15 of the Streets and Highways Code of the State of California, Section 4 of Article XIII(D) of the California Constitution, and direction from the Board of Supervisors of Riverside County, California, submitted herewith is the Engineer's Report for Landscaping and Lighting Maintenance District No. 89-1-Consolidated ("Report"), consisting of five parts.

WHEREAS, the Board of Supervisors of the County of Riverside, State of California, did, pursuant to the provisions of the Landscaping and Lighting Act of 1972, being Division 15 of the Streets and Highways Code of the State of California, adopt Resolution No. 94-389 to initiate proceedings to form a special assessment district known and designated as:

Landscaping and Lighting Maintenance District No. 89-1-Consolidated
("L&LMD No. 89-1-C" or "District"); and,

WHEREAS, the Board of Supervisors, did direct the appointed Engineer to make and file an annual Report, in accordance with Article 4 (commencing with Section 22565) of Chapter 1 of Part 2 of Division 15 of the Streets and Highways Code, being an article of the aforementioned Landscaping and Lighting Act of 1972.

WHEREAS, Section 22567 of said Article 4 states the Report shall consist of the following:

a. Maintenance plans for the improvements
b. An estimate of the costs of the maintenance of the improvements
c. A diagram for the assessment district
d. An assessment of the estimated costs of the maintenance of the improvements

I do hereby assess and apportion the total amount of the costs and expenses upon several parcels of land within said designated area liable therefor and benefited thereby, in proportion to the estimated benefits that each parcel receives, respectively, from said services.

NOW, THEREFORE, I, the appointed ENGINEER, acting on behalf of the County of Riverside Transportation and Land Management Agency, pursuant to the Landscaping and Lighting Act of 1972, do hereby submit the following:

1. Pursuant to the provisions of law, the costs and expenses of the District have been assessed upon the parcels of land in the District benefited thereby in direct proportion and relation to the estimated benefits to be received by each of said parcels. For particulars as to the identification of said parcels, reference is made to the Assessment Diagrams, reduced copies of which are included herein.

2. As required by law, a Diagram is filed herewith, showing the District, as well as the boundaries and dimensions of the respective parcels and subdivisions of land within said District as the same exist each of which subdivisions of land or parcels or lots, respectively, have been given a separate number upon said Diagram and in the Assessment Roll contained herein.

3. The separate numbers given the subdivisions and parcels of land, as shown on said Assessment Diagram and Assessment Roll, correspond with the numbers assigned to each parcel by the Riverside County Assessor. Reference is made to the County Assessment Roll for a description of the lots or parcels.

4. There are no parcels or lots within Zones 100, 103, 109, 110, 112, 119, 123, 124, 135, 138, 145, 146, 148, 149, 152, 153, 154, 155, 157, 160, 161, 162, 164, 166, 168, 171, 172, 174, 175, 180, 187, 188, 190, 191, 192, 193, 195,197, 198, 199, 200, 202, 204, 206, 207, 211, 213, 214, 215, 216, 218, 220, 225, 242, or 245 that are owned by a federal, state or other local governmental agency that will benefit from the services to be provided by the assessments to be collected.

In conclusion, it is my opinion that the assessments for Landscaping and Lighting Maintenance District No. 89-1-Consolidated have been spread in direct accordance with the benefits that each parcel receives from the items being financed.

EXECUTIVE SUMMARY

A. INTRODUCTION

This Combined Annual Engineer's Report is prepared in compliance with the requirements of Article 4, Chapter 1, of the Landscaping and Lighting Act of 1972 ("1972 Act"), which is Part 2, Division 15 of the California Streets and Highways Code.

Since the Passage of Proposition 218, Right to Vote on Taxes Act, which added Articles XIII(C) and XIII(D) to the California Constitution, new procedures must be followed to levy annual assessments under the 1972 Act.

Proposition 218 requires that all annual assessments be supported by a detailed Engineer's Report ("Report") prepared by a registered professional engineer. The Report includes the information required by law.

The 1972 Act provides for the annual levy of assessments for the Landscaping and Lighting Maintenance District No. 89-1-Consolidated ("District") for the express purpose of installing, maintaining, and servicing of landscaping, including trees, shrubs, grass, other ornamental vegetation, and drainage devices, trails, streetlights, traffic signals, bridge lights, and graffiti abatement improvements. The costs associated with the installation, maintenance, and servicing of the improvements may be assessed against those properties which are specially benefited by the installation, maintenance, and servicing. A County may levy annual assessments for an assessment district after complying with the requirements of the 1972 Act, and the provisions in Proposition 218.

The County initiates proceedings for the annual levy of assessments by passing a resolution, which proposes the annual levy under the 1972 Act. This resolution also describes the improvements, describes the location of the District, and finally orders an engineer, who is a registered professional engineer, certified by the State of California, to prepare and file a detailed report.

The Report prepared by the engineer must include maintenance plans for the improvements. The Report must also include an estimate of the costs of the improvements, a diagram, i.e., map of the District showing the boundary of the District, and an assessment of the estimated costs of the improvements against the parcels or lots which benefit from the improvements. Once the Report is completed, it is presented to the County Board of Supervisors for its review and approval as presented, or it may be modified and approved.

After the Report is preliminarily approved, the County Board of Supervisors may adopt a Resolution of Intention, which declares its intent to levy the annual assessments against parcels within the existing District, describes the improvements, and refers to the Report for details of the District. The Resolution of Intention also sets a time and place for a hearing on the annual levy of assessments for the District.

In accordance with Proposition 218, property owners of the assessed parcels must approve any new or increased assessments. Zones included in this Report have been previously approved by property owners in accordance with Proposition 218.

B. BREAKDOWN

Currently there are 203 locations within 181 L&LMD No. 89-1-C Zones: 92 street lighting assessment zones (92 locations) and 89 assessment zones (111 locations).

There are 97 maintained locations; 3 dormant locations; and 11 locations within the County which have no improvements and are, therefore, not yet maintained; exclusive of street lighting zones.

The Combined Annual Engineer's Report will cover the 181 existing Zones. New or pending Zones will be presented to the Board of Supervisors under separate reports.

Total number of Locations: 203

Assessment Zones: 89 (111 locations)

Street Lighting Assessment Zones: 92 (92 locations)

Total number of Maintained Locations: 97, within 89 Assessment Zones

Total number of Maintained Street Lighting Locations: 80, within 92 Street Lighting Zones

C. CHANGES TO DISTRICT ZONES

For Fiscal Year 2025-26, the following zones/locations/tracts are changing status from Not Yet Maintained to Maintained:

Zone 161 and Street Lighting Zone 123

For Fiscal Year 2025-26, the following zones/locations/tracts are changing status from Maintained to Not Yet Maintained:

Zone 103 and Zone 218

D. DESCRIPTION OF IMPROVEMENTS AND SERVICES

The improvements for the District and Zones may be generally described as follows:

> The installation, maintenance and servicing of ornamental structures, fences, multi-purpose trails, landscaping, including trees, shrubs, grass, other ornamental vegetation, drainage devices (such as bio swales and stormwater runoff catch basin filters), including irrigation systems, street lighting, traffic signals and bridge lights, located in public places within the boundaries of the Zones. Maintenance means the furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including: repair, removal, or replacement of all or part of any improvement; providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury; the removal of trimmings, rubbish, debris, and other solid waste; the cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti. Servicing means the furnishing of electricity for the lighting and operation of any ornamental structures, landscaping, and appurtenant facilities; water for the irrigation and control of the landscaping, and the maintenance of any of the ornamental structures, landscaping and appurtenant facilities.

Article XIII(D) of the California Constitution defines "maintenance and operation expenses" as "the cost of rent, repair, replacement, rehabilitation, fuel, power, electrical current, care and supervision necessary to properly operate and maintain a permanent public improvement". The District's funding includes, but is not limited to, the removal, repair, replacement and appurtenances, electrical energy, supplies, engineering and incidental costs relating to the maintenance and operation of the improvements benefiting the District's parcels.

E. MAINTENANCE PLANS

Plans for the improvements for the Zones are voluminous and are not bound in this Report but by this reference are incorporated and made a part of this Report. The Plans for maintained zones are on file in the office of the Riverside County Transportation Department, 4080 Lemon Street, 2nd Floor, Riverside, CA 92501, where they are available for public inspection. Reduced maps of the maintained improvements are in Part IV, Assessment Diagrams of this Report.

PART II – METHOD OF APPORTIONMENT

Part II – Method of Apportionment

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, which include the construction, maintenance, and servicing of public lights, landscaping, dedicated easements for landscape use, and appurtenant facilities. The 1972 Act further provides that assessments may be apportioned upon all assessable lots or parcels of land within an assessment district in proportion to the estimated benefits to be received by each lot or parcel from the improvements rather than assessed value.

> *"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."*

The formula used for calculating assessments reflects the composition of the parcels and the improvements and services provided by the District to fairly apportion the costs based on the estimated benefit to each parcel.

In addition, Article XIII(D) of the California Constitution ("Article") requires that a parcel's assessment may not exceed the reasonable cost of the proportional special benefit conferred on that parcel. The Article provides that only special benefits are assessable, and the County must separate the general benefits from the special benefits conferred on a parcel. A special benefit is a particular and distinct benefit over and above general benefits conferred on the public at large, including real property within the district. The general enhancement of property value does not constitute a special benefit.

SPECIAL BENEFIT

The maintenance of landscaping, including stormwater runoff catch basin filters and bio-swales, multi-purpose trails, fencing, streetlights, traffic signals, bridge lights, and graffiti abatement provides direct and special benefit to those properties located within Landscaping and Lighting Maintenance District No. 89-1-Consolidated ("L&LMD No. 89-1-C" or "District").

Each and every lot or parcel within the District receives a particular and distinct benefit from the improvements over and above general benefits conferred by the improvements. First, the improvements were conditions of approval for the creation or development of the parcels. In order to create or develop the parcels, the County required the original developer to install and/or guarantee the maintenance of the improvements, and appurtenant facilities serving the lots or parcels. Therefore, each and every lot or parcel within the District could not have been developed in the absence of the installation and expected maintenance of these facilities.

In addition, the improvements continue to confer a particular and distinct special benefit upon parcels within the District because of the nature of the improvements. The proper maintenance of landscaping, including stormwater runoff catch basin filters and bio-swales, multi-purpose trails, fencing, streetlights, traffic signals, bridge lights, graffiti abatement, and appurtenant facilities specially benefit parcels within the District by moderating temperatures, providing oxygenation, attenuating noise from adjacent streets and controlling dust for those properties in close proximity to the landscaping. Improved erosion and water quality control, dust abatement, increased public safety (e.g., control sight distance restrictions and fire hazards), improved neighborhood property protection and aesthetics, controlling or restricting the

flow of traffic into and out of the development, increasing public safety for both pedestrians and the motoring public, and increasing traffic safety by improving visibility. The spraying and treating of landscaping for disease reduces the likelihood of insect infestation and other diseases spreading to landscaping located throughout the properties within the District. Streetlights also provide safety for pedestrians and motorists living and owning property in the District during the nighttime hours, and to assign rights-of-way for the safety of pedestrians and motorists by defining a specific path of travel during all hours of the day.

Streets are constructed for the safe and convenient travel of vehicles and pedestrians. They also provide an area for underground and overhead utilities. These elements are a distinct and special benefit to all developed parcels in the District. Streetlights are installed on and are for street purposes and are maintained and serviced to allow the street to perform to the standards it was designed.

Streetlights are determined to be an integral part of "streets" as a "permanent public improvement." One of the principal purposes of fixed roadway lighting is to create a nighttime environment conducive to quick, accurate, and increased visibility for the user of the facility. These factors, if attained, combine to improve traffic safety and achieve efficient traffic movement. Fixed lighting can enable the motorist to see detail more distinctly and to react safely toward roadway and traffic conditions present on or near the roadway facility.

The system of streets within the District is established to provide access to each parcel in the District. Streetlights provide a safer street environment for owners of the parcels served. If the parcels were not subdivided to provide individual parcels to owners within the District, there would be no need for a system of streets with streetlights. Therefore, the installation of streetlights is for the express, special benefit of the parcels within the District.

The proper maintenance of the landscaping, ornamental structures, and appurtenant facilities reduces property-related crimes (especially vandalism) against properties in the District through the screening of properties within the District from arterial streets.

Finally, the proper maintenance of landscaping, including stormwater runoff catch basin filters and bio-swales, multi-purpose trails, fencing, and graffiti abatement, and appurtenant structures improves the attractiveness of the properties within the District. This provides a positive visual experience each and every time a trip is made to or from the property and provides an enhanced quality of life and sense of well-being for property owners within the District.

Traffic signal assessments are based on traffic studies and/or trip counts. For specific zone benefits, see Part III Estimate of Costs and Expenses.

Because all benefiting properties within a given zone consist of a uniform land use, it is determined that all lots or parcels benefit equally from the improvements and the costs and expenses for the provision of electricity for the streetlights and traffic signals and the maintenance of landscaping, including stormwater runoff catch basin filters and bio-swales, multi-purpose trails, fencing, traffic signals, bridge lights, and graffiti abatement are apportioned on a per acre, per Equivalent Dwelling Unit (EDU), or per parcel basis.

Based on the benefits described above, landscaping, including stormwater runoff catch basin filters and bio-swales, multi-purpose trails, fencing, streetlights, traffic signals, bridge lights, and graffiti abatement are an integral part of the quality of life of the District. This quality of life is a special benefit to those parcels that are not government-owned parcels or easements, utility easements, or flood channel parcels. Government-owned parcels or easements, utility easements and flood channel parcels do not benefit from the improvements due to their use and lack of habitation on such parcels. Parcels of this nature are usually vacant narrow strips of land or flood control channels and therefore do not generate or

experience pedestrian or vehicular traffic. Nor do these types of parcels support dwelling units or other structures that would promote frequent use of the parcels by the traveling public. As a result of this lack of activity on such parcels they do not receive any benefit from landscaping, including stormwater runoff catch basin filters and bio-swales, multi-purpose trails, fencing, streetlights, traffic signals, bridge lights, and graffiti abatement and are not assessed.

Special Benefit of Landscaping and Lighting Maintenance District No. 89-1-Consolidated Authorized Improvements and Services:

- The installation and planting of landscaping, including trees, shrubs, grass and other ornamental vegetation;
- The installation or construction of statuary, fountains and other ornamental structures and facilities;
- The installation or construction of public lighting facilities, including, but not limited to, traffic signals;
- The installation or construction of any facilities which are appurtenant to any of the foregoing, or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks or paving, water irrigation, drainage or electrical facilities, and;

The maintenance or servicing, or both, of any of the foregoing.

GENERAL BENEFIT

The total benefit from the works of improvement is a combination of the special benefits to the parcels within the District and the general benefits to the public at large and to adjacent property owners. The portion of the total landscaping, including stormwater runoff catch basin filters and bio-swales, multi-purpose trails, fencing, streetlights, traffic signals, bridge lights, and graffiti abatement maintenance costs associated with general benefits will not be assessed to the parcels in the District but will be paid from other County Funds. Because the landscaping, including stormwater runoff catch basin filters and bio-swales, multi-purpose trails, fencing, streetlights, traffic signals, bridge lights, and graffiti abatement improvements are located immediately adjacent to properties within the District and are maintained solely for the benefit of the properties within the District, any benefit received by properties outside of the District will be in the proportions stated under Special Benefit. As a result, no property is assessed in excess of the reasonable cost of the proportional special benefit conferred on that property.

However, some traffic signal improvements provide both general and specific benefit. It was previously determined that the costs and expenses for the traffic signal improvements are less than the County's total maintenance cost. Percentages of the County's total maintenance costs were previously determined from budgets at the time of annexation by Riverside County Transportation Department. These percentages are noted on the applicable Fiscal Year 2025-26 budgets in Part III, Estimate of Costs and Expenses, for those Zones with traffic signal improvements. Therefore, only the portion of costs directly related to the special benefit of the traffic signal improvements will be assessed to the applicable Zones.

PART III – ESTIMATE OF COSTS AND EXPENSES

Part III – Estimate of Costs and Expenses

The cost estimate contains each of the items specified in Section 22569 of the 1972 Act.

The 1972 Act provides that the estimated costs of the improvements shall include the total cost of the improvements for the entire Fiscal Year (2025-26), including incidental expenses, which may include operating reserves.

The 1972 Act also provides that the amount of any surplus, deficit, or contribution be included in the estimated cost of improvements. The net amount to be assessed on the lots or parcels within the Zones is the total cost of installation, maintenance, and servicing with adjustments either positive or negative for reserves, surpluses, deficits, and/or contributions.

The inflation factor, for those zones with an inflation factor in place, may increase budgets for Zones, which have not been accepted for maintenance, as if assessed. However, the amount to levy may be credited resulting in a zero assessment.

Each succeeding fiscal year the maximum assessment for Zones 100, 103, 109, 110, 112, 119, 123, 124, 135, 138, 145, 146, 148, 149, 152, 153, 154, 155, 157, 160, 161, 162, 164, 166, 168, 171, 172, 174, 175, 180, 187, 188, 190, 191, 192, 193, 195, 197, 198, 199, 200, 202, 204, 206, 207, 211, 213, 214, 215, 216, 218, 220, 225, 242, and 245 may be subject to an annual adjustment that is the greater of two percent or the cumulative percentage increase, if any, in the Consumer Price Index for all Urban Consumers (CPI-U) for All Items or the CPI-U for Electricity (as applicable) for the Riverside-San Bernardino-Ontario area ("Index") published by the Bureau of Labor Statistics of the United States Department of Labor. The annual CPI-U for All Items or CPI-U for Electricity adjustment will be based on the cumulative increase, if any, in the Index as it stands in March of each year over the base Index. Any increase larger than the greater of two percent, the CPI-U for All Items, or CPI-U for Electricity annual adjustment requires a majority approval of all the property owners within each of the benefit zones in the District.

There is a two percent proposed inflationary increase in the maximum assessment per acre, per EDU or per parcel, as applicable, in Zones 100, 103, 109, 110, 112, 119, 123, 124, 135, 138, 145, 146, 148, 149, 152, 153, 154, 155, 157, 160, 161, 162, 164, 166, 168, 171, 172, 174, 175, 180, 187, 188, 190, 191, 192, 193, 195, 197, 198, 199, 200, 202, 204, 206, 207, 211, 213, 214, 215, 216, 218, 220, 225, 242, and 245 for Fiscal Year 2025-26, which is consistent with ballot propositions approved by the qualified electors when establishing said zones.

Please see Appendix A for the individual budget pages, prepared by County staff, for each Zone covered in Volume 2 of the Report.

PART IV – ASSESSMENT DIAGRAMS

Part IV – Assessment Diagrams

Reduced copies of the Assessment Diagrams are filed herewith and made a part hereof.

If any parcel submitted for collection is identified by the County Auditor-Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel number will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if any parcel has changed subsequent to the date of this Report, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate.

Information identified on these maps was received from several sources including the owner/developer, Riverside County Transportation and Land Management Agency, and the Riverside County Assessor.

Please see Appendix B for the Diagrams of each Zone covered in Volume 2 of the Report.

The Leon Rd/Scott Rd traffic signal was assessed at 10% of the total maintenance cost for the County at the time of annexation ($5,500). The Leon Rd/Whispering Heights Way traffic signal was assessed at 25% of the total maintenance cost at the time of annexation ($5,500). Both signals are not yet installed but will be 100% owned and maintained by the County. Traffic Signal #4532 (SH-79/Winchester Rd/Pourroy Rd) was assessed at 10% of the total maintenance cost at the time of annexation ($1,815). The responsibility for this signal is shared by the County (33%) and the State of California (67%). Percentages were based on how much the developments within Zone 109 boundaries would impact the traffic at these intersections.

Zone 160 includes dormant parkway landscaping on SH-371/Cahuilla Rd, which has not yet been installed; the maintenance of which, once installed, will be the responsibility of the property owner. Zone 160 also includes dormant streetlights on SH-371/Cahuilla Rd and Maze Stone Rd; the energy costs are currently the responsibility of the property owner. Should the property owner default on the maintenance of the parkway landscaping or streetlights, L&LMD No. 89-1-C would assume responsibility, and the per acre assessment may increase by $41,515.30, for the parkway landscaping and $334.46 for the streetlights (initial payment would be double to cover back payments), Zone 160 includes dormant parkway landscaping on SH-371/Cahuilla Rd, which has not yet been installed; the maintenance of which, once installed, will be the responsibility of the property owner. COUNTY OF RIVERSIDE
STATE OF CALIFORNIA

ENGINEER'S REPORT FOR FISCAL YEAR 2025-2026

LANDSCAPING AND LIGHTING ACT OF 1972

DIVISION 15 OF THE STREETS AND HIGHWAYS CODE OF THE STATE OF CALIFORNIA

Pursuant to the provisions of Section 22565 through 22574 of the Landscaping and Lighting Act of 1972, said act being Part 2 of Division 15 of the Streets and Highways Code of the State of California, Section 4 of Article XIII(D) of the California Constitution, and direction from the Board of Supervisors of Riverside County, California, submitted herewith is the Engineer's Report for Landscaping and Lighting Maintenance District No. 89-1-Consolidated ("Report"), consisting of five parts.

WHEREAS, the Board of Supervisors of the County of Riverside, State of California, did, pursuant to the provisions of the Landscaping and Lighting Act of 1972, being Division 15 of the Streets and Highways Code of the State of California, adopt Resolution No. 94-389 to initiate proceedings to form a special assessment district known and designated as:

Landscaping and Lighting Maintenance District No. 89-1-Consolidated
("L&LMD No. 89-1-C" or "District"); and,

WHEREAS, the Board of Supervisors, did direct the appointed Engineer to make and file an annual Report, in accordance with Article 4 (commencing with Section 22565) of Chapter 1 of Part 2 of Division 15 of the Streets and Highways Code, being an article of the aforementioned Landscaping and Lighting Act of 1972.

WHEREAS, Section 22567 of said Article 4 states the Report shall consist of the following:

a. Maintenance plans for the improvements
b. An estimate of the costs of the maintenance of the improvements
c. A diagram for the assessment district
d. An assessment of the estimated costs of the maintenance of the improvements

I do hereby assess and apportion the total amount of the costs and expenses upon several parcels of land within said designated area liable therefor and benefited thereby, in proportion to the estimated benefits that each parcel receives, respectively, from said services.

NOW, THEREFORE, I, the appointed ENGINEER, acting on behalf of the County of Riverside Transportation and Land Management Agency, pursuant to the Landscaping and Lighting Act of 1972, do hereby submit the following:

1. Pursuant to the provisions of law, the costs and expenses of the District have been assessed upon the parcels of land in the District benefited thereby in direct proportion and relation to the estimated benefits to be received by each of said parcels. For particulars as to the identification of said parcels, reference is made to the Assessment Diagrams, reduced copies of which are included herein.

2. As required by law, a Diagram is filed herewith, showing the District, as well as the boundaries and dimensions of the respective parcels and subdivisions of land within said District as the same exist each of which subdivisions of land or parcels or lots, respectively, have been given a separate number upon said Diagram and in the Assessment Roll contained herein.

3. The separate numbers given the subdivisions and parcels of land, as shown on said Assessment Diagram and Assessment Roll, correspond with the numbers assigned to each parcel by the Riverside County Assessor. Reference is made to the County Assessment Roll for a description of the lots or parcels.

4. There are no parcels or lots within Street Lighting Zones 2, 3, 4, 9, 11, 12, 13, 14, 16, 20, 21, 22, 25, 29, 30, 31, 36, 37, 38, 42, 43, 44, 45, 46, 47, 48, 52, 53, 54, 55, 56, 57, 58, 61, 64, 65, 66, 67, 68, 72, 74, 75, 76, 78, 81, 82, 85, 89, 95, 97, 99, 101, 103, 104, 107, 108, 109,110, 113, 115, 116, 117, 119, 121, 122, 123, 124, 127, 129, 132, 133, 134, 135, 136, 137, 138, 139, 141, 143, 146, 147, 148, 149, 151, 152, 154, 155, 156, 157, 158, 159, or 166 that are owned by a federal, state or other local governmental agency that will benefit from the services to be provided by the assessments to be collected.

In conclusion, it is my opinion that the assessments for Landscaping and Lighting Maintenance District No. 89-1-Consolidated have been spread in direct accordance with the benefits that each parcel receives from the items being financed.

DATED this 23rd day of June, 2025.

EXECUTIVE SUMMARY

A. INTRODUCTION

This Combined Annual Engineer's Report is prepared in compliance with the requirements of Article 4, Chapter 1, of the Landscaping and Lighting Act of 1972 ("1972 Act"), which is Part 2, Division 15 of the California Streets and Highways Code.

Since the Passage of Proposition 218, Right to Vote on Taxes Act, which added Articles XIII(C) and XIII(D) to the California Constitution, new procedures must be followed to levy annual assessments under the 1972 Act.

Proposition 218 requires that all annual assessments be supported by a detailed Engineer's Report ("Report") prepared by a registered professional engineer. The Report includes the information required by law.

The 1972 Act provides for the annual levy of assessments for the Landscaping and Lighting Maintenance District No. 89-1-Consolidated ("District") for the express purpose of installing, maintaining, and servicing of landscaping, including trees, shrubs, grass, other ornamental vegetation, and drainage devices, trails, streetlights, traffic signals, bridge lights, and graffiti abatement improvements. The costs associated with the installation, maintenance, and servicing of the improvements may be assessed against those properties which are specially benefited by the installation, maintenance, and servicing. A County may levy annual assessments for an assessment district after complying with the requirements of the 1972 Act, and the provisions in Proposition 218.

The County initiates proceedings for the annual levy of assessments by passing a resolution, which proposes the annual levy under the 1972 Act. This resolution also describes the improvements, describes the location of the District, and finally orders an engineer, who is a registered professional engineer, certified by the State of California, to prepare and file a detailed report.

The Report prepared by the engineer must include maintenance plans for the improvements. The Report must also include an estimate of the costs of the improvements, a diagram, i.e., map of the District showing the boundary of the District, and an assessment of the estimated costs of the improvements against the parcels or lots which benefit from the improvements. Once the Report is completed, it is presented to the County Board of Supervisors for its review and approval as presented, or it may be modified and approved.

After the Report is preliminarily approved, the County Board of Supervisors may adopt a Resolution of Intention, which declares its intent to levy the annual assessments against parcels within the existing District, describes the improvements, and refers to the Report for details of the District. The Resolution of Intention also sets a time and place for a hearing on the annual levy of assessments for the District.

In accordance with Proposition 218, property owners of the assessed parcels must approve any new or increased assessments. Zones included in this Report have been previously approved by property owners in accordance with Proposition 218.

B. BREAKDOWN

Currently there are 203 locations within 181 L&LMD No. 89-1-C Zones: 92 street lighting assessment zones (92 locations) and 89 assessment zones (111 locations).

There are 97 maintained locations; 3 dormant locations; and 11 locations within the County which have no improvements and are, therefore, not yet maintained; exclusive of street lighting zones.

The Combined Annual Engineer's Report will cover the 181 existing Zones. New or pending Zones will be presented to the Board of Supervisors under separate reports.

Total number of Locations: 203

Assessment Zones: 89 (111 locations)

Street Lighting Assessment Zones: 92 (92 locations)

Zone 161 and Street Lighting Zone 123

For Fiscal Year 2025-26, the following zones/locations/tracts are changing status from Maintained to Not Yet Maintained:

Zone 103 and Zone 218

D. DESCRIPTION OF IMPROVEMENTS AND SERVICES

The improvements for the District and Zones may be generally described as follows:

> The installation, maintenance and servicing of ornamental structures, fences, multi-purpose trails, landscaping, including trees, shrubs, grass, other ornamental vegetation, drainage devices (such as bio swales and stormwater runoff catch basin filters), including irrigation systems, street lighting, traffic signals and bridge lights, located in public places within the boundaries of the Zones. Maintenance means the furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including: repair, removal, or replacement of all or part of any improvement; providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury; the removal of trimmings, rubbish, debris, and other solid waste; the cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti. Servicing means the furnishing of electricity for the lighting and operation of any ornamental structures, landscaping, and appurtenant facilities; water for the irrigation and control of the landscaping, and the maintenance of any of the ornamental structures, landscaping and appurtenant facilities.

Article XIII(D) of the California Constitution defines "maintenance and operation expenses" as "the cost of rent, repair, replacement, rehabilitation, fuel, power, electrical current, care and supervision necessary to properly operate and maintain a permanent public improvement". The District's funding includes, but is not limited to, the removal, repair, replacement and appurtenances, electrical energy, supplies, engineering and incidental costs relating to the maintenance and operation of the improvements benefiting the District's parcels.

PART II – METHOD OF APPORTIONMENT

Part II – Method of Apportionment

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, which include the construction, maintenance, and servicing of public lights, landscaping, dedicated easements for landscape use, and appurtenant facilities. The 1972 Act further provides that assessments may be apportioned upon all assessable lots or parcels of land within an assessment district in proportion to the estimated benefits to be received by each lot or parcel from the improvements rather than assessed value.

> *"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."*

The formula used for calculating assessments reflects the composition of the parcels and the improvements and services provided by the District to fairly apportion the costs based on the estimated benefit to each parcel.

In addition, Article XIII(D) of the California Constitution ("Article") requires that a parcel's assessment may not exceed the reasonable cost of the proportional special benefit conferred on that parcel. The Article provides that only special benefits are assessable, and the County must separate the general benefits from the special benefits conferred on a parcel. A special benefit is a particular and distinct benefit over and above general benefits conferred on the public at large, including real property within the district. The general enhancement of property value does not constitute a special benefit.

SPECIAL BENEFIT

The servicing of streetlights provides direct and special benefit to those properties located within Landscaping and Lighting Maintenance District No. 89-1-Consolidated ("L&LMD No. 89-1-C" or "District").

Each and every lot or parcel within the District, receives a particular and distinct benefit from the improvements over and above general benefits conferred by the improvements. First, improvements were conditions of approval for the creation or development of the parcels. In order to create or develop the parcels, the County required the original developer to install and/or guarantee the maintenance of the improvements, and appurtenant facilities serving the lots or parcels. Therefore, each and every lot or parcel within the District could not have been developed in the absence of the installation and expected maintenance and servicing of these facilities.

In addition, the improvements continue to confer a particular and distinct special benefit upon parcels within the District because of the nature of the improvements. The servicing of streetlights, and appurtenant facilities, specially benefit parcels within the District by increased public safety, improved neighborhood property protection, reduced property-related crimes (especially vandalism), increasing public safety for both pedestrians and the motoring public, and increasing traffic safety by improving visibility. Streetlights also assign rights-of-way for the safety of pedestrians and motorists by defining a specific path during all hours of the day.

Streets are constructed for the safe and convenient travel of vehicles and pedestrians. They also provide an area for underground and overhead utilities. These elements are a distinct and special benefit to all developed parcels in the

District. Streetlights are installed on and are for street purposes and are maintained and serviced to allow the street to perform to the standards it was designed.

Streetlights are determined to be an integral part of "streets" as a "permanent public improvement." One of the principal purposes of fixed roadway lighting is to create a nighttime environment conducive to quick, accurate, and comfortable seeing for the user of the facility. These factors, if attained, combine to improve traffic safety and achieve efficient traffic movement. Fixed lighting can enable the motorist to see detail more distinctly and to react safely toward roadway and traffic conditions present on or near the roadway facility.

The system of streets within the District is established to provide access to each parcel in the District. Streetlights provide a safer street environment for the parcels served. If the parcels were not subdivided to provide individual parcels within the District, there would be no need for a system of streets with streetlights. Therefore, the installation of streetlights is for the express, special benefit of the parcels within the District.

Finally, the servicing of streetlights provides an enhanced quality of life and sense of well-being for properties within the District.

Because all benefiting properties within a given zone consist of a uniform land use, it is determined that all lots or parcels benefit equally from the improvements and the costs and expenses for the provision of electricity for the streetlights are apportioned on a per acre or per parcel basis.

Based on the benefits described above, streetlights are an integral part of the quality of life of the District. This quality of life is a special benefit to those parcels that are not government-owned parcels or easements, utility easements, or flood channel parcels. Government-owned parcels or easements, utility easements and flood channel parcels do not benefit from the improvements due to their use and lack of habitation on such parcels. Parcels of this nature are usually vacant narrow strips of land or flood control channels and therefore do not generate or experience pedestrian or vehicular traffic. Nor do these types of parcels support dwelling units or other structures that would promote frequent use of the parcels by the traveling public. As a result of this lack of activity on such parcels they do not receive any benefit from streetlights and are not assessed.

Special Benefit of Landscaping and Lighting Maintenance District No. 89-1-Consolidated Authorized Improvements and Services:

- The installation and planting of landscaping, including trees, shrubs, grass and other ornamental vegetation;
- The installation or construction of statuary, fountains and other ornamental structures and facilities;
- The installation or construction of public lighting facilities, including, but not limited to, traffic signals;
- The installation or construction of any facilities which are appurtenant to any of the foregoing, or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks or paving, water irrigation, drainage or electrical facilities, and;
- The maintenance or servicing, or both, of any of the foregoing.

GENERAL BENEFIT

The total benefit from the works of improvement is a combination of the special benefits to the parcels within the District and the general benefits to the public at large and to adjacent property. The portion of the total streetlight servicing costs associated with general benefits will not be assessed to the parcels in the District, but will be paid from other County Funds. Because the streetlights are located immediately adjacent to properties within the District and are maintained

solely for the benefit of the properties within the District, any benefit received by properties outside of the District will be in the proportions stated under Special Benefit. As a result, no property is assessed in excess of the reasonable cost of the proportional special benefit conferred on that property.

PART III – ESTIMATE OF COSTS AND EXPENSES

Part III – Estimate of Costs and Expenses

The cost estimate contains each of the items specified in Section 22569 of the 1972 Act.

The 1972 Act provides that the estimated costs of the improvements shall include the total cost of the improvements for the entire Fiscal Year (2025-26), including incidental expenses, which may include operating reserves.

The 1972 Act also provides that the amount of any surplus, deficit, or contribution be included in the estimated cost of improvements. The net amount to be assessed on the lots or parcels within the Zones is the total cost of installation, maintenance, and servicing with adjustments either positive or negative for reserves, surpluses, deficits, and/or contributions.

The inflation factor, for those zones with an inflation factor in place, may increase budgets for Zones, which have not been accepted for maintenance, as if assessed. However, the amount to levy may be credited resulting in a zero assessment.

Each succeeding fiscal year the maximum assessment for Street Lighting Zones 2, 3, 4, 9, 11, 12, 13, 14, 16, 20, 21, 22, 25, 29, 30, 31, 36, 37, 38, 42, 43, 44, 45, 46, 47, 48, 52, 53, 54, 55, 56, 57, 58, 61, 64, 65, 66, 67, 68, 72, 74, 75, 76, 78, 81, 82, 85, 89, 95, 97, 99, 101, 103, 104, 107, 108, 109, 110, 113, 115, 116, 117, 119, 121, 122, 123, 124, 127, 129, 132, 133, 134, 135, 136, 137, 138, 139, 141, 143, 146, 147, 148, 149, 151, 152, 154, 155, 156, 157, 158, 159, and 166 may be subject to an annual adjustment that is the greater of two percent or the cumulative percentage increase, if any, in the Consumer Price Index for all Urban Consumers (CPI-U) for All Items or the CPI-U for Electricity (as applicable) for the Riverside-San Bernardino-Ontario area ("Index") published by the Bureau of Labor Statistics of the United States Department of Labor. The annual CPI-U for All Items or CPI-U for Electricity adjustment will be based on the cumulative increase, if any, in the Index as it stands in March of each year over the base Index. Any increase larger than the greater of two percent, the CPI-U for All Items, or CPI-U for Electricity annual adjustment requires a majority approval of all the property owners within each of the benefit zones in the District.

There is a two percent proposed inflationary increase in the maximum assessment per acre, or per parcel as applicable for Street Lighting Zones 2, 3, 4, 9, 11, 12, 13, 14, 16, 20, 21, 22, 25, 29, 30, 31, 36, 37, 38, 42, 43, 44, 45, 46, 47, 48, 52, 53, 54, 55, 56, 57, 58, 61, 64, 65, 66, 67, 68, 72, 74, 75, 76, 78, 81, 82, 85, 89, 95, 97, 99, 101, 103, 104, 107, 108, 109, 110, 113, 115, 116, 117, 119, 121, 122, 123, 124, 127, 129, 132, 133, 134, 135, 136, 137, 138, 139, 141, 143, 146, 147, 148, 149, 151, 152, 154, 155, 156, 157, 158, 159, and 166 for Fiscal Year 2025-26, which is consistent with ballot propositions approved by the qualified electors when establishing said zones.

Please see Appendix A for the individual budget pages, prepared by County staff, for each Street Lighting Zone covered in Volume 3 of the Report.

PART IV – ASSESSMENT DIAGRAMS

Part IV – Assessment Diagrams

Reduced copies of the Assessment Diagrams are filed herewith and made a part hereof.

If any parcel submitted for collection is identified by the County Auditor-Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel number will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if any parcel has changed subsequent to the date of this Report, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate.

Information identified on these maps was received from several sources including the owner/developer, Riverside County Transportation Department, and the Riverside County Assessor.

Please see Appendix B for the Diagrams of each Street Lighting Zone covered in Volume 3 of the Report.
