BACKGROUND:

Summary

The Riverside County Transportation Department (Transportation Department) on behalf of the City of Indio proposes to reconstruct and widen the Monroe Street / Interstate 10 Interchange from two to four lanes on Monroe Street between the Coachella Valley Storm Channel and 42nd Avenue, reconstruct and widen the on- and off-ramps to two or three lanes at the intersection of Monroe Street, construct an eastbound auxiliary lane between Monroe Street and Jackson Street on Interstate 10, and extend the on- and off-ramps with acceleration and deceleration lanes. The Monroe Street Interchange is a major access point for existing development in the interchange area.

As documented in the Notice of Exemption, the Transportation Department conducted a review of the proposed project and determined that the Project, including the acquisition of the permanent rights, is categorically exempt from the provisions of CEQA, under the General Rule Exemption, pursuant to CEQA Guidelines §15051(a). Because the Project is being carried out by the County, the County shall be the CEQA Lead Agency.

The Transportation Department has presented a written offer to the property owner as required by Government Code § 7262.2. The amount of the offer is consistent with current property values in the City of Indio and is based upon a fair market value appraisal report. The Transportation Department has also offered to pay reasonable costs, not to exceed \$5,000, for an independent appraisal obtained by the property owner as required by the Code of Civil Procedure § 263.025.

Negotiations are still ongoing with the property owner listed below for the property rights needed for the Project. The Transportation Department will continue to conduct good faith negotiations with the property owner in an effort to reach a mutually agreed-upon settlement.
