BACKGROUND:

Summary

By Minute Order dated July 29, 2025 (Agenda Item 3.70), the County of Riverside Board of Supervisors authorized the Clerk of the Board to advertise for the construction of the 6th Avenue and 10th Avenue Resurfacing Project, in the Community of West Blythe.

The project consists of resurfacing approximately 5 miles of 6th Avenue from 2 miles west of De Frain Boulevard to Intake Boulevard / State Highway 95 (SH-95), and to resurface approximately 1.6 miles of 10th Avenue from 0.6 mile west of Arrowhead Boulevard to De Frain Boulevard, in the community of West Blythe in Riverside County.

Four projects were combined to bid as one project in order to gain cost efficiencies by eliminating multiple bidding and administrative procedures and to seek more favorable proposed costs associated with larger bid quantities.

Roadway resurfacing treatment is needed due to the deteriorated pavement conditions. The resurfacing treatment consists of grinding existing asphalt concrete in place (pulverize), mixing and compacting grindings with native soil and overlaying the new base with new hot mix asphalt (HMA). Additional improvements include adjusting utility manholes, placement of safety edge and grading dirt shoulders to protect the outside edge of pavement, reconstructing asphalt concrete dikes, safety features include reconstructing metal beam guardrails, installing pavement striping, pavement markers and reflectors, thermoplastic pavement markings, removing and installing roadside signs, and other associated work.

During the advertisement period, one addendum was issued to all registered plan holders as a supplement to the plans and specifications. Bidders were required to acknowledge and take into account the issued addendum on their contractor's Bid in order to be considered for award.

The addendum was issued to clarify and modify the approved contract documents. The addendum did not increase the engineer's cost estimate. The addendum is attached and designated as Addendum No. 1.

The Contract includes the following schedules of work:

Base Bid Schedule 1A:	6th Avenue, De Frain Blvd to Lovekin Blvd, County Portion
Alt. Bid Schedule 1B:	6th Avenue, De Frain Blvd to Lovekin Blvd, City of Blythe Portion
Base Bid Schedule 2A:	6th Avenue, 2 Miles West of De Frain Blvd to De Frain Blvd, County Portion
Alt. Bid Schedule 2B:	6th Avenue, 2 Miles West of De Frain Blvd to De Frain Blvd, City of Blythe Portion
Base Bid Schedule 3:	6th Avenue, Lovekin Boulevard to Intake Boulevard / SH-95
Base Bid Schedule 4A:	10th Avenue, 0.6 Miles West of Arrowhead Blvd to De Frain Blvd, County Portion
Alt. Bid Schedule 4B:	10th Avenue, 0.6 Miles West of Arrowhead Blvd to De Frain Blvd, City of Blythe Portion

City of Blythe has concurred the bid prices proposed by Granite Construction Company for Alternative Bid Schedules 1B, 2B, and 4B. Therefore, a reimbursement Agreement between the City of Blythe and County of Riverside is being submitted to the Board of Supervisors for approval concurrent with the award of this project.

The contractor, Granite Construction Company, is qualified to perform the work as outlined in the bid, has executed the contract, and has provided bonds and insurance documents which meet the requirements of the contract documents.

Impact on Residents and Businesses

The purpose of this project is to replace existing deteriorated pavement with new hot mix asphalt concrete for a combined total of 6.6 miles of 6th Avenue and 10th Avenue in the Community of West Blythe to provide the public with a smooth paved roadway that will improve the safety and efficiency of vehicular traffic. 6th Avenue is used as a route to Palo Verde Community College located 2 miles west of De Frain Boulevard.

Construction is anticipated to begin in fall/winter 2025. The work will be phased to keep the roads open during construction as much as possible and will take approximately two and a half months to complete.

SUPPLEMENTAL:

Additional Fiscal Information

Construction is expected to be completed in Fiscal Year 2025/2026 and will be funded with Gas Tax / SB-1 and City of Blythe funds.

There are no General Funds used in this project.

Contract History and Price Reasonableness

A total of three bids were received on Wednesday August 20, 2025, ranging from $6,608,000 to $8,900,000. The basis for the selection of a contractor is the lowest responsive and responsible bid. The low bidder, Granite Construction Company, submitted the lowest responsive and responsible bid in the amount of $6,608,000 which is $544,039 (7.6%) below the engineer's cost estimate.

The Transportation Department recommends the award of the contract to Granite Construction Company in the amount of $6,608,000.

any other basis. But if required by the "written contract" to be primary and non-contributory, this insurance will be primary and non-contributory relative to insurance on which the additional insured is a Named Insured.

5. The insurance provided to the additional insured does not apply to "bodily injury," "property damage," or "personal and advertising injury" arising out of:

   a. The rendering of, or the failure to render, any professional architectural, engineering, or surveying services, including:

      (1) The preparing, approving, or failing to prepare or approve maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; and

      (2) Supervisory, inspection, architectural or engineering activities; or

   b. Any premises or work for which the additional insured is specifically listed as an additional insured on another endorsement attached to this Coverage Part.

C. **SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS** is amended as follows:

1. The **Duties In The Event of Occurrence, Offense, Claim or Suit** condition is amended to add the following additional conditions applicable to the additional insured:

   An additional insured under this endorsement will as soon as practicable:

   (1) Give us written notice of an "occurrence" or an offense which may result in a claim or "suit" under this insurance, and of any claim or "suit" that does result;

   (2) Except as provided in Paragraph **B.4.** of this endorsement, agree to make available any other insurance the additional insured has for a loss we cover under this Coverage Part;

   (3) Send us copies of all legal papers received, and otherwise cooperate with us in the investigation, defense, or settlement of the claim or "suit"; and

   (4) Tender the defense and indemnity of any claim or "suit" to any other insurer or self insurer whose policy or program applies to a loss we cover under this Coverage Part. But if the "written contract" requires this insurance to be primary and non-contributory, this provision **(4)** does not apply to insurance on which the additional insured is a Named Insured.

   We have no duty to defend or indemnify an additional insured under this endorsement until we receive from the additional insured written notice of a claim or "suit."

D. Only for the purpose of the insurance provided by this endorsement, **SECTION V – DEFINITIONS** is amended to add the following definition:

"Written contract" means a written contract or written agreement that requires you to make a person or organization an additional insured on this Coverage Part, provided the contract or agreement:

1. Is currently in effect or becomes effective during the term of this policy; and
2. Was executed prior to:
   a. The "bodily injury" or "property damage"; or
   b. The offense that caused the "personal and advertising injury,"

   for which the additional insured seeks coverage under this Coverage Part.

All other terms and conditions of the Policy remain unchanged.

DESIGNATED CONSTRUCTION PROJECT(S) GENERAL AGGREGATE LIMIT

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Designated Construction Project(s):
Any construction project as required by a written contract or agreement that was executed prior to the date of loss.
Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

A. For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under Section **I** – Coverage **A,** and for all medical expenses caused by accidents under Section **I** – Coverage **C,** which can be attributed only to ongoing operations at a single designated construction project shown in the Schedule above:

1. A separate Designated Construction Project General Aggregate Limit applies to each designated construction project, and that limit is equal to the amount of the General Aggregate Limit shown in the Declarations.
2. The Designated Construction Project General Aggregate Limit is the most we will pay for the sum of all damages under Coverage **A,** except damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard," and for medical expenses under Coverage **C** regardless of the number of:
   - **a.** Insureds;
   - **b.** Claims made or "suits" brought; or
   - **c.** Persons or organizations making claims or bringing "suits."
3. Any payments made under Coverage **A** for damages or under Coverage **C** for medical expenses shall reduce the Designated Construction Project General Aggregate Limit for that designated construction project. Such payments shall not reduce the General Aggregate Limit shown in the Declarations nor shall they reduce any other Designated Construction Project General Aggregate Limit for any other designated construction project shown in the Schedule above.
4. The limits shown in the Declarations for Each Occurrence, Damage To Premises Rented To You and Medical Expense continue to apply. However, instead of being subject to the General Aggregate Limit shown in the Declarations, such limits will be subject to the applicable Designated Construction Project General Aggregate Limit.

B. For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under Section **I** – Coverage **A,** and for all medical expenses caused by accidents under Section **I** – Coverage **C,** which cannot be attributed only to ongoing operations at a single designated construction project shown in the Schedule above:

1. Any payments made under Coverage **A** for damages or under Coverage **C** for medical expenses shall reduce the amount available under the General Aggregate Limit or the Products-completed Operations Aggregate Limit, whichever is applicable; and
2. Such payments shall not reduce any Designated Construction Project General Aggregate Limit.

C. When coverage for liability arising out of the "products-completed operations hazard" is provided, any payments for damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard" will reduce the Products-completed Operations Aggregate Limit, and not reduce the General Aggregate Limit nor the Designated Construction Project General Aggregate Limit.

D. If the applicable designated construction project has been abandoned, delayed, or abandoned and then restarted, or if the authorized contracting parties deviate from plans, blueprints, designs, specifications or timetables, the project will still be deemed to be the same construction project.

E. The provisions of Section **III** – Limits Of Insurance not otherwise modified by this endorsement shall continue to apply as stipulated.

For RAP substitution of 15 percent or less, the grade of the virgin binder shall be the specified grade of asphalt binder for Type A HMA. For RAP substitution greater than 15 percent and not exceeding 25 percent, the grade of the virgin binder shall be the specified grade of asphalt binder for Type A HMA with the upper and lower temperature classification reduced by 6 degrees C.

RAP stockpile used in the mix design shall be sampled and tested under CT 384. The average AASHTO T 308 uncorrected binder content shall be reported on the mix design data form. The sampling and testing frequency shall be performed at a minimum frequency of 1 test per 1000 tons under CT 384 to determine the uncorrected binder content under AASHTO T 308. The uncorrected binder content of each sample must be within +/- 2 percent of the average uncorrected binder content reported on the mix design form.

During Type A HMA production, RAP shall be sampled and tested for aggregate gradation at least once a day under CT 384 and for moisture content at least once a day.
