C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Summary

The Emergency Management Department is requesting authorization to remove twenty-one (21) ventilators from the department's asset inventory and donate them to Parkview Community Hospital. Parkview Community Hospital has submitted a request to acquire the ventilators for use in training and as backup medical surge equipment for its emergency operations center.

The ventilators were purchased in 2011 and have served their useful life and are fully depreciated. The ventilators were originally utilized for hospitals and alternate care sites during a surge event when existing resources were not sufficient.

Upon Board approval, Parkview Community Hospital will assume responsibility for the transfer and transportation of the ventilators. The Riverside County Emergency Management Department proposes to donate the following equipment:

<u>Asset ID</u>	<u>Tag Number</u>	<u>Description</u>	<u>Serial ID</u>	<u>Model</u>

Impact on Residents and Businesses

The citizens of the County of Riverside, particularly the Parkview Community, will continue to receive the benefit of the use of these ventilators. There is no impact on businesses.

Additional Fiscal Information

These ventilators have reached the end of their useful life of 15 years and are fully depreciated. They are no longer utilized by the Riverside County Emergency Management Department and have been designated as County surplus. The cost of maintenance and transportation for the twenty-one (21) ventilators will be the responsibility of Parkview Community Hospital.

The ventilators were initially purchased using federal grant funds allocated for the H1N1 (Hemagglutinin Type 1 and Neuraminidase Type 1) influenza response during the 2009 pandemic. The Emergency Management Department (EMD) notified the California Department of Public Health (CDPH), which directed EMD to follow the County's established procedures for disposing of surplus assets. EMD will ensure compliance with these procedures and update inventory records to reflect the removal of the ventilators.

H1N1 grant funds refer to federal funding distributed by the HHS, primarily through the Centers for Disease Control and Prevention (CDC) and the Assistant Secretary for Preparedness and Response (ASPR), to support state and local public health agencies during the 2009 pandemic.
