SUBMITTAL TO THE BOARD OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA

ITEM: 3.62
(ID # 29510)
MEETING DATE:
Tuesday, December 16, 2025

FROM : TLMA-TRANSPORTATION

SUBJECT: TRANSPORTATION AND LAND MANAGEMENT AGENCY/TRANSPORTATION: Approval of the FY 2025/2026 Annual Edition, Transportation Improvement Program with Additional Related Actions. All Districts. [$0]

RECOMMENDED MOTION: That the Board of Supervisors:

1. Approve and adopt the FY 2025/2026 Annual Edition, Transportation Improvement Program (TIP);

2. Authorize the use of Western Riverside County Development Impact Fee (DIF) Traffic Signal funds (Fund No. 30503) in the amount of $3,135,000 and Eastern Riverside County DIF Traffic Signal funds (Fund No. 30502) in the amount of $2,232,000 for construction of traffic signals as listed on Attachment "A";

3. Direct the Executive Office to transfer DIF funds to the Transportation Fund No. 31692 (Western DIF Signal funds) and Fund No. 31691 (Eastern DIF Signal Funds) pursuant to submitted billings for traffic signal projects; and

4. Authorize the Director of Transportation to take all necessary administrative actions to implement the TIP.

ACTION:Policy

Dennis Acuna, Director of Transportation 12/2/2025

MINUTES OF THE BOARD OF SUPERVISORS

On motion of Supervisor Spiegel, seconded by Supervisor Perez and duly carried, IT WAS ORDERED that the above matter is approved as recommended.

Ayes:	Spiegel, Washington, Perez, and Gutierrez
Nays:	None
Absent:	Medina
Date:	December 16, 2025

C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Summary

The Transportation Improvement Program (TIP) is the County of Riverside's (County's) funding plan for Transportation Capital projects. The Transportation Department (Department) has approximately $738 million in active projects either under construction or soon to be, including several large bridges and interchanges.

The passing of Senate Bill 1 (SB-1) by the state legislature in April 2017 included the creation of the Road Maintenance and Rehabilitation Program and the Road Maintenance and Rehabilitation Account (RMRA) which has provided a much-needed long term, reliable and stable cash funding source aimed primarily at maintaining our existing paved roads. The County received $52 million in FY 24/25 and is projected to receive $51 million in FY 25/26. The SB-1/RMRA funds are restricted to pavement rehabilitation, maintenance, and safety projects.

Securing funds for projects to increase traffic capacity continues to be difficult. The very limited availability of Federal funds for road capacity expansion continues to stretch our ability to timely deliver needed projects. We will continue to work closely with our partners at the Riverside County Transportation Commission (RCTC), Coachella Valley Association of Governments (CVAG), Western Riverside Council of Governments (WRCOG), the State of California Department of Transportation (Caltrans) and our cities to assess priorities and shift limited funding to optimize project delivery. The County serves as the lead agency on several projects within cities, on a contract basis. Forty-one percent of the dollars in this TIP are associated with projects in other jurisdictions that are being funded by those jurisdictions and/or through regional, State, or Federal programs.

The Transportation Department presently sees two significant issues impacting delivery of larger projects. The State's federally funded bridge program is substantially underfunded and is not able to meet the cash flow needs of bridge projects currently in progress. The largest impacts are to bridge projects within cities for which the County is in the role as lead agency. Projects of particular concern are the Mission Boulevard Bridge and the Market Street Bridge.

Also, the Infrastructure Investment and Jobs Act (IIJA) signed into law by the President on November 15, 2021, provides limited funding stability given that federally funded projects take years to deliver. It has also created significant changes to established funding programs and

has added new administrative guidelines and policies for implementation. The $350 billion investment in highway programs the bill will provide through September 2026 comes with the creation of more than a dozen new highway programs with new regulations to navigate. The competition for these funds has been intense. The Department will continue to work closely with its regional partners at RCTC, CVAG, WRCOG, and our cities to assess priorities and optimize funding sources.

Transportation Improvement Program Summary

The TIP is a multi-fund source planning document, with periodic amendments as needed throughout the year, which the Department uses to more efficiently manage its numerous projects and financial resources. This program includes projects funded by General Highway funds, Special Districts, State and Federal funds, special programs, and other agencies.

The total TIP amount is estimated at $937 million. This amount does not include the needs for an additional $771 million required for all unincorporated area listed projects to be fully funded.

In order to be eligible for the upcoming fiscal year's SB-1/RMRA allocation, legislation requires counties to submit a Board of Supervisors approved list of projects planned to be funded with the SB-1/RMRA funds to the California Transportation Commission (CTC), by July 1st annually. The list of projects to be funded with FY 25/26 SB-1 funds were approved by resolution 2025-062 under agenda item 3.53 on May 20, 2025. The approved list was submitted to the CTC on June 5, 2025, and the projects have been incorporated into the TIP document.

The County is required to submit a five-year Measure "A" Local Streets and Roads Program to RCTC each May in conformance with the Measure "A" Expenditure Plan. This edition of the TIP is consistent with the previously submitted FY 25/26 Measure "A" Program. The County allocation shares of Measure "A" funds for FY 25/26 are forecasted at $11 million.

On March 11, 2021, President Biden signed the American Rescue Plan Act (ARPA) of 2021 (H.R. 1319) in to law. The $1.9 trillion package is intended to combat the COVID-19 pandemic, including the public health and economic impacts. Riverside County's share of the American Rescue Plan funding is $479,874,599. The funds must be obligated by December 31, 2024 and expended by December 31, 2026. The department has been allocated nearly $38 million in ARPA funding to finance several TIP projects including the Temescal Canyon Road widening, Jurupa Road Grade Separation, Clark Street sidewalk, and Carver Tract sidewalks.

Impact of State Budget on County Transportation Budget

The receipts of traditional State Gas Tax funds dedicated to operations and maintenance has been on an upward trend, increasing gradually to roughly $38 million annually over the last several years as result of the SB-1 legislation. This has helped to offset inflation and traffic growth.

Two large projects funded in part by State funds dedicated by the SB-132 legislation of 2017 are proceeding. Those projects are the Hamner Avenue Bridge over the Santa Ana River (in the

closeout phase) and the Jurupa Road Grade Separation (under construction). Riverside County is serving as the implementing agency for these projects located in the cities of Norco and Jurupa Valley. The SB-132 funds total $115 million and the total budget for these projects is $283 million. No County funds are being used for these projects that are being delivered for cities on a contract basis.

Utility Underground Projects

The County's Underground Utility Conversion Program (Rule 20A), which was funded from California Public Utility Commission (CPUC) funds, were allocated to cities and counties in accordance with a formula developed by the CPUC. Rule 20A funds were collected by the Edison Company from its rate payers and kept in trust by the Edison Company, with oversight and auditing provided by the CPUC. Allocations to the County have been reduced significantly over the past few years and as of 2023 the CPUC decided to discontinue the program. The County is no longer receiving allocations and is currently exploring how to best draw down our current balance and discontinue the program.

Traffic Signal DIF Funds

The list of traffic signal projects on Attachment "A" includes both new and active projects proposed to be funded with DIF funds, specifically the Western Riverside County Traffic Signal funds and Eastern Riverside County Traffic Signal funds. Funds will be transferred from the Executive Office to the Department as costs are incurred. In addition to these projects, the Department and developers are working on other traffic signal projects in each supervisorial district.

Pavement Condition

Funding for pavement rehabilitation in FY 25/26 and 26/27 is greater than in prior years due to steadily increasing gas tax revenue along with County Supervisors providing the Department a significant amount of ARPA funds over the last few fiscal years. Although the final ARPA projects are nearing completion and gas tax revenues are beginning to level out, these increases have improved the pavement condition overall throughout the County. The steady gas tax revenue is providing funds for more costly pavement resurfacing and pavement reconstruction projects which would otherwise have been shelved.

Impact on Residents and Businesses

The Transportation Department is responsible for planning, designing, funding, building, operating and maintaining nearly 2,300 centerline miles of County-maintained roadways and 116 bridges within the unincorporated areas. The projects, as identified in the TIP, will improve safety, maintain existing roads and bridges, and enhance roadway capacity needed to accommodate growth.

SUPPLEMENTAL:

Additional Fiscal Information

Budget authority is given by the Board of Supervisors. Funding varies by project.

Preface

INTRODUCTION

The Riverside County Transportation Department is responsible for planning, designing, funding, building, operating, and maintaining the County's transportation network within unincorporated areas. This system includes nearly 2,300 centerline miles of County-maintained roadways, 116 bridges, and various transportation facilities within an area of approximately 7,300 square miles, comparable in size to New Jersey. The Transportation Department also maintains 565 traffic signals (184 within the unincorporated area and 381 within contracted cities) and operates 9 maintenance yards strategically located throughout the County. This puts into context the diverse challenges the Transportation Department faces in providing service to a growing population of over 2.5 million residents in Riverside County. We focus on the priorities of improving safety, preserving and maintaining existing roads and bridges, and enhancing roadway capacity to accommodate continued population growth.

The Transportation Department receives revenue from a variety of funds. At present, the Department has approximately 90 active fund sources. The capital expenditure of these funds is defined and programmed in this document named the "Transportation Improvement Program" or "TIP," which provides a multi-year projection of revenues and expenditures for the Department. It is updated and approved by the County Board of Supervisors annually, with periodic amendments throughout the year. The Department uses the TIP to help manage its numerous projects and financial resources.

The multi-year budget outlined by the TIP includes $937 million in total improvements, with $324 million scheduled for fiscal year 2025/2026 and $272 million for fiscal year 2026/2027. These amounts represent the Departments capital budget and do not include operating budget numbers. This program includes projects funded by General Highway Funds, Special Districts, State and Federal Funds, special programs, and other agencies.

The Department has approximately $738 million in projects either under or close to construction, including several major bridge and interchange projects as well as State Highway projects within cities where the County serves at the lead agency. The Department has taken advantage of Federal and State Funds to boost project deliveries.

The State's SB-1 transportation funding program is expected to provide $104 million over two fiscal years, 25/26 and 26/27, that will be used primarily for road maintenance and rehabilitation. Projects proposed for delivery with SB-1 funds are contained within this document. Additionally, the SB-1 legislation continues the Gas Tax/HUTA revenues which are forecast to provide $13 million over two fiscal years, 25/26 and 26/27.

The current Federal Transportation Bill brings limited stability given that federally funded projects often require multiple years to deliver and significant changes to established funding programs have new administrative guidelines and policies for implementation. The Infrastructure Investment and Jobs Act of 2021 (IIJA) signed into law by the President on November 15, 2021 invests $350 billion in highway programs nationwide through September 2026 and includes the largest dedicated bridge investment since the construction of the Interstate Highway System. Several new funding programs such as the Safe Streets and Roads for All and the Bridge Investment Program were created with the passage of this bill. The Department will continue pursuing all available funding opportunities, and work closely with our regional partners at RCTC, CVAG, WRCOG, and our cities to align priorities and optimize funding sources.

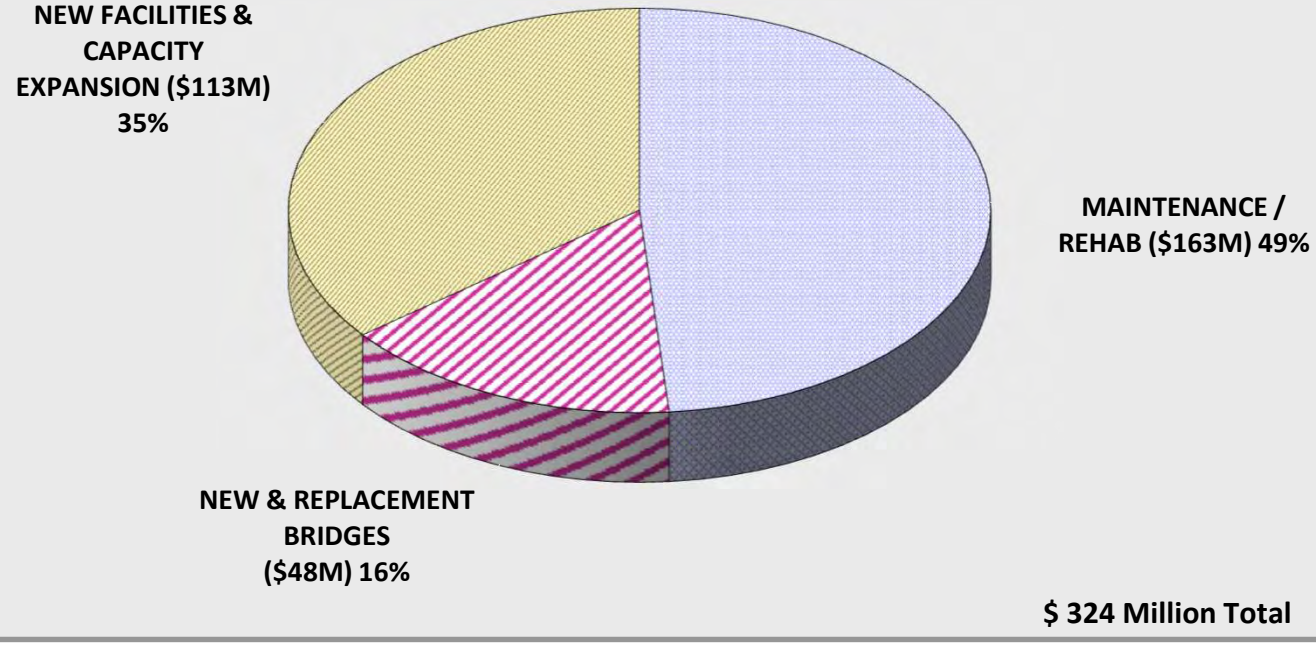

The accompanying graphs, charts and tables provide a detailed look at the proposed projects, programmed funds, revenue allocations, and various components that make up the Transportation Improvement Program. An electronic copy of this year's TIP document, as well as previous years' TIP documents, can be found on the Transportation Department website at:

FUNDING ALLOCATION "GROUND RULES"

GUIDELINES FOR ALLOCATING GENERAL HIGHWAY FUNDS
FOR SUPERVISORIAL DISTRICTS

GAS TAX & SB-1

- County Wide:
  - 2/3 Maintained Lane Miles
  - 1/3 Road Condition

LOCAL TRANSPORTATION FUNDS

- Return to Sub-Region of the County

MEASURE A

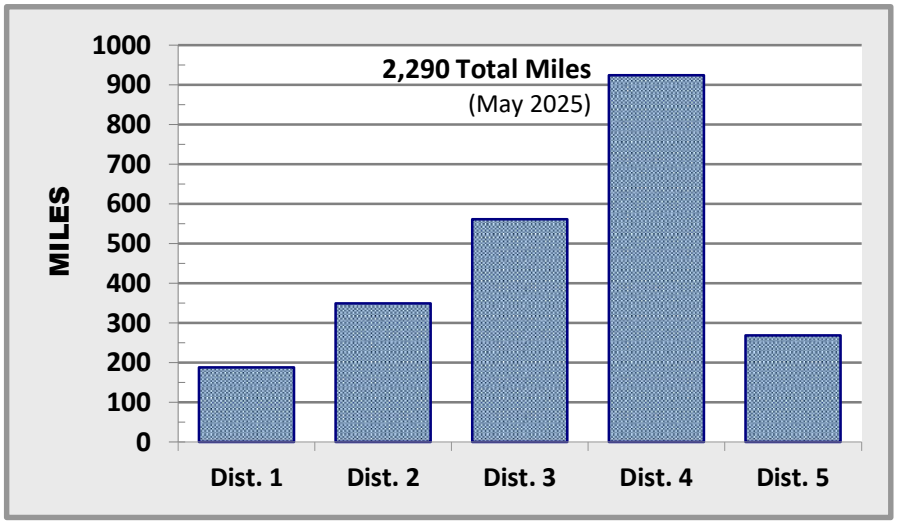

- Return to Sub-Region of the County (Western, Coachella Valley and Palo Verde)
- In Western & Coachella Valley Regions:
  - 2/3 Maintained Lane Miles
  - 1/3 Road Condition

FEDERAL STP "FORMULA" FUNDS

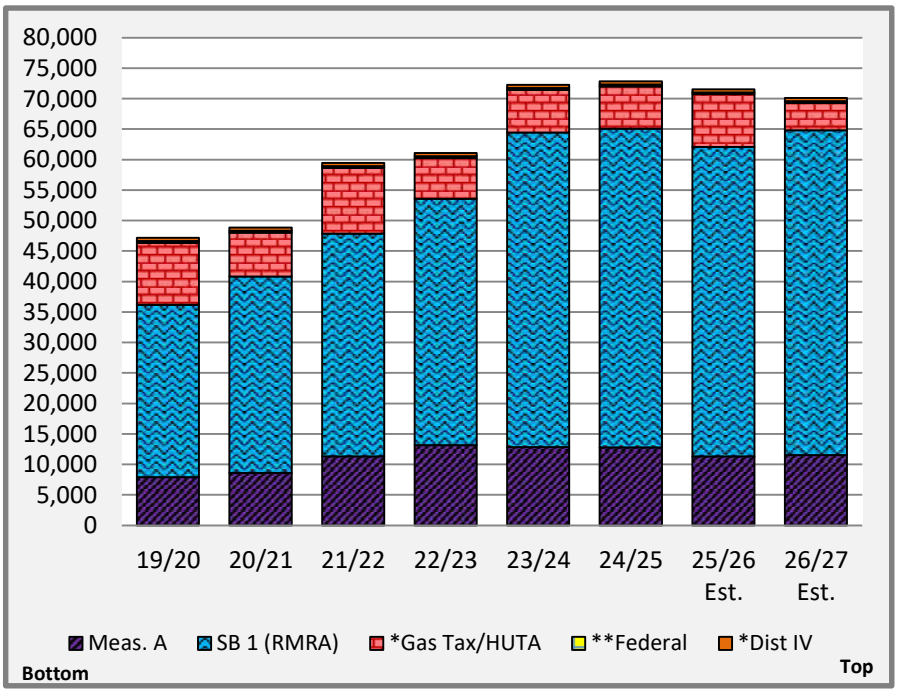

- Rural Area:
  - 1/3 Federal-Aid System Miles
  - 1/3 Area
  - 1/3 Population
- Urbanized Area and Urban Place Area:
  - Population

General Notes:

- Reconcile and recalculate each year to account for actual vs. estimated costs.
- Allow staff to interchange general highway fund sources on any given year to provide maxium flexibility on project delivery to overall targets for each supervisorial district over time.
- Discretionary Federal funds (STP Discretionary, CMAQ, HBRR and HSIP) are received on a competitive basis and are not subject to these "Ground Rules."

Underground Utility Program

UNDERGROUND UTILITY CONVERSION PROGRAM (RULE 20-A)

An underground utility conversion program established by the California Public Utilities Commission (CPUC) for the conversion of existing overhead distribution lines to an underground location. Funds for the conversion of electrical facilities are kept in trust by the owning utility and apportioned to local agencies by an established formula. Other overhead utilities are required by similar CPUC Rules to fund their own conversions, when ordered by the Board of Supervisors by establishment of an Underground Utility District.

By minute order dated April 27, 1999 (agenda item 3.35), the Board of Supervisors adopted a project selection method whereby technically sound and cost effective candidate districts are identified by the Transportation Department and the Southern California Edison Company for each Supervisorial District. Projects for funding are to be identified after consultation with Supervisors, and relative equity is to be maintained over time based on the proportion of road mileage in the Edison Company service area in each Supervisorial District.

Rule 20A District	Location	Supr. Dist.	Status
45	Stetson Avenue Dartmouth St to Hemet CL (W of San Jacinto Street)	3	District adopted by the Board 7/31/07 (9.15). Design has not begun due to Edison workload and shortage of County allocations. Project may be phased in order to enable earliest start.

Note:

Funding is currently not available for the completion of Stetson Avenue, due to increased project costs since the adoption of that District. Due to limited Rule 20A funding, and escalating utility undergrounding costs, the Transportation Department is exploring phasing the project.

UNDERGROUND UTILITY CONVERSION PROGRAM (RULE 20-A)

FY 2025-2026

Program Funding Summary

Recent Allocations:

2025 Allocation	$0	
Funding (Allocation) Balance as of 11/1/2025		$11,806,326

Remaining Encumbrances:

Stetson Avenue (Rule 20A District 45, Estimated Cost)	$15,840,000	
Total Remaining Encumbrances:		$15,840,000

Summary:

Estimated Unencumbered Allocation Balance:(as of 11/1/2025)	-$4,033,674

Projected Allocation Balance vs Estimated Cost:

Estimated future annual Allocations: (Based on SCE reports that allocations are diminished)	$0

Year	Estimated Allocation Balance
2024	-4,033,674
2025	-4,033,674
2026	-4,033,674
2027	-4,033,674
2028	-4,033,674
2029	-4,033,674
2030	-4,033,674
2031	-4,033,674
2032	-4,033,674
2033	-4,033,674
2034	-4,033,674
2035	-4,033,674
2036	-4,033,674
2037	-4,033,674
2038	-4,033,674
2039	-4,033,674
2040	-4,033,674

Notes:

Costs and allocation balances are based on information provided by the Southern California Edison Company.
Rule 20A funds are managed by the Edison Company in accordance with CPUC requirements and procedures.

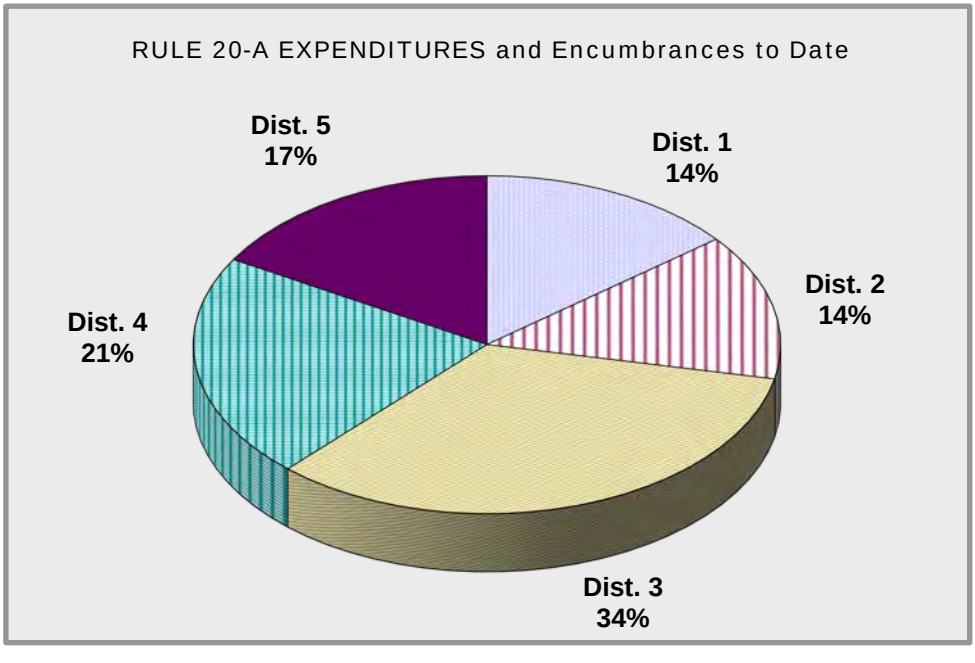

SUPERVISORIAL EQUITY DISTRIBUTION

RIVERSIDE COUNTY UNDERGROUND UTILITY CONVERSION PROGRAM (RULE 20-A)

As approved by the Board of Supervisors 4/27/1999 (3.35)

Supervisorial District	Rule 20-A Project Totals To Date *	
Dist. 1	$6,368,000	14.3%
Dist. 2	$6,244,649	14.0%
Dist. 3	$14,986,861	33.6%
Dist. 4	$9,616,455	21.6%
Dist. 5	$7,407,130	16.6%
Total:	$44,623,095	100.0%

**** Includes approved projects In development***

Culvert Rehab Program

ANNUAL CULVERT REHABILITATION PROGRAM

Background

The Transportation Department maintains approximately five thousand culverts throughout the County of Riverside. Prior to the inception of this Annual Culvert Rehabilitation, culverts do not normally get replaced except in catastrophic storm events causing failure or replaced in conjunction with an adjacent Capital Improvement Project. This reactive approach causes significant work for the Transportation Department's Maintenance Staff since culverts can become completely rotted, broken, clogged, and buried over time.

As local developments are approved and constructed, new infrastructure is added into the County's maintenance system including the number of culverts the County is responsible to maintain, which continues to put a demand on the Department's Maintenance Staff. Approximately one thousand culverts were added into the maintenance system since fiscal year 2021.

The Department's Maintenance Staff has recently begun inspecting culverts annually and have documented the information into a database summarized in the table below. Culverts in need of repair are rated into three categories:

1. Minor facility component repair
2. Functional, but needs repair
3. Non-functional, needs repair

	Up to Fiscal Year 22/23*		
Total Culverts	4,964		
Culverts Inspected	3,470		
	Santa Ana River Watershed	**Santa Margarita River Watershed**	**Whitewater River Watershed**
Minor facility component repair	36	5	4
Functional, but needs repair	19	6	1
Non-functional, needs repair	129	5	13

*Data is still incomplete due to ongoing inspections by Maintenance Staff

Purpose

Asset management through the Annual Culvert Rehabilitation Program allows the Transportation Department to alleviate the workload of Maintenance Staff on existing culverts while assessing the number of culverts that need and can be repaired each fiscal year. In addition, the Regional Water Quality Control Board (RWQCB) has indicated that a requirement for asset management will be included in new MS4 Permits coming out in 2022.

The County of Riverside contains three main watersheds and is regulated by three state Regional Water Quality Control Boards described below:

1. Santa Ana River Watershed. RWQCB: Middle Santa Ana River Watershed 8
2. Santa Margarita River Watershed. RWQCB: San Diego Region 9
3. Whitewater River Watershed. RWQCB: Colorado Region 7

Program Details

The Annual Culvert Rehabilitation Program will aim to distribute culvert repairs across the three watersheds and five supervisorial districts equally. The infrastructure, geography, and environmental factors of each watershed and supervisorial district influences the number of existing culverts and will affect the number and locations of culverts repaired each year.

Culvert repair types will be split into two categories in accordance with the County's Long Term Maintenance Agreement (LTA) with the California Department of Fish and Wildlife:

1. Replace in kind
2. Upsize, modify, addition of features (requires environmental permitting)

The Program will prioritize on repairing culverts rated as "Non-functional, major repair needed" and culverts that can be replaced in kind. Culvert repairs requiring upsizing or modifications will be more expensive and take greater efforts because of the required environmental permitting process as defined by the LTA.

Groupings of culverts selected to be repaired will additionally be based off efficiency of proximity, cost effectiveness, and ease in administrative burdens relating to environmental permitting. This will result in focusing on one watershed every year or two years with the goal of having culverts repaired each fiscal year.
