BACKGROUND:

Summary

The Agreement sets forth the terms and conditions by which the District will contribute funding to the City for the construction of the Corona Downtown Storm Drain Improvements ("Project") as part of the City-wide stormwater master plan update to address several drainage issues and enhance flood protection within the City.

The improvements consist of (i) the removal and upsizing of approximately 3,500 lineal feet of a deficient underground storm drain system along Merrill Street, (ii) the construction of approximately 7,000 lineal feet of a new storm drain system along 6th Street between Buena Vista Avenue and Temescal Wash and (iii) extending the existing storm drain system by approximately 760 lineal feet on Sheridan Street and 780 lineal feet on Belle Avenue. Upon completion of construction, improvements will (i) collect runoff along the major corridors and convey it to existing, upgraded and planned systems in and around the downtown area and (ii) alleviate flooding experienced along the 6th Street corridor within the City's downtown area. The City will be responsible for inspection, operation and maintenance of the facilities.

County Counsel has approved the Agreement as to legal form. The City intends to execute the Agreement on its December 4th Meeting Agenda. The City's executed agreement is forthcoming.

Environmental Findings

The Agreement is exempt from CEQA pursuant to the CEQA Guidelines Section 15061(b)(3) (Common Sense Exemption), which provides, "The activity is covered by the common-sense exemption that CEQA applies only to the projects which have the potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA." The Agreement does not authorize to any extent whatsoever actual physical development of the underlying property. Such development, if it occurs at all, will be the result of subsequent actions subject to CEQA review by the City prior to construction. The Agreement merely establishes the terms by which the District will provide funding to the City for the construction of the referenced facilities. It can be seen with certainty that there is no possibility the Agreement will have a significant effect on the environment. Therefore, nothing further is required under CEQA.

Impact on Residents and Businesses

The District's financial contribution toward the City's Project is funded by ad valorem property tax revenue and entails no new fees, taxed nor bonded indebtedness to residents and businesses. Upon construction completion, the facilities will alleviate ongoing flooding problems and improve traffic circulation and safety on a priority corridor.

Additional Fiscal Information

Pursuant to the Implementing Agreement for the Western Riverside County Multiple Species Habitat Conservation Plan ("MSHCP") executed on June 22, 2004, the District is a participating agency. The District is making a payment to the Western Riverside County Regional Conservation Authority for up to 3% of the total capital costs as required mitigation for the construction of flood control facilities in cooperation with and on behalf of the City. The MSHCP mitigation fee is based on the engineer's estimated Project cost, however, the actual 3% payment will be based on the Project's lowest responsive contract bid price. The actual mitigation payment that will be made by the District may be reduced based on acquisition of replacement habitat for the benefit of Covered Species, as defined in the Implementing Agreement and the MSHCP. The Agreement will not affect any MSHCP conservation areas or conflict with MSHCP policies.

The District is providing up to \$10,328,000 in funding to the City for Project construction. Sufficient funding is available in the District's Zone 2 budget for FY 25/26 and will be included in the proposed budget in future years as appropriate and necessary.

Any uncertainty or ambiguity in this Agreement shall not be construed against DISTRICT because DISTRICT prepared this Agreement in its final form.

15. Nothing in the provisions of this Agreement is intended to create duties or obligations to or rights in third parties not Parties to this Agreement.

16. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which taken together shall constitute one and the same instrument. Each Party of this Agreement agrees to the use of electronic signatures, such as digital signatures that meet the requirements of the California Uniform Electronic Transactions Act ("CUETA") Cal. Civ. Code §§ 1633.1 to 1633.17), for executing this Agreement. The

Electronic signature means an electronic sound, symbol or process attached to or logically associated with an electronic record and executed or adopted by a person with the intent to sign the electronic record pursuant to CUETA as amended from time to time. CUETA authorizes use of an electronic signature for transactions and contracts among Parties in California, including a government agency. Digital signature means an electronic identifier, created by computer, intended by the Party using it to have the same force and effect as the use of a manual signature, and shall be reasonably relied upon by the Parties. For purposes of this section, a digital signature is a type of "electronic signature" as defined in subdivision (i) of Section 1633.2 of the Civil Code.
