BACKGROUND:

Summary

The Department of Public Social Services (DPSS) is entering into a contract with Aspiranet, for Traditional Wraparound Services, effective October 22, 2025 through June 30, 2026 with an option to renew through June 30, 2027, in the aggregate amount of \$123,820.

A Riverside County dependent placed in Kern County on October 22, 2025 is receiving clinical services associated with traditional wraparound from the Kern County Department of Health Services.

Traditional Wraparound program services are offered by trained professionals for youth, their parents and/or caregivers. Traditional Wraparound services provide individualized, comprehensive services for youth with complex multi-dimensional issues. These services focus on building the strengths of each eligible child/youth and family/caregiver and are designed to address their unique and changing needs. Findings indicate Wraparound services positively impact youth who participate in the program by improving stability and reunification rates, while decreasing group home placements and re-entry into the foster care system.

As a result of Senate Bill 163 (Statutes of Welfare and Institutions Code 18250), counties are authorized to implement a Wraparound Program to provide foster youth with alternatives to group home care and to provide intensive services to youth and families/caregivers that ultimately improve outcomes of these children.

Impact on Residents and Businesses

The Wraparound Program provides much needed assistance to youth and families as an alternative to group home placements.

Additional Fiscal Information

The total annual payments to Aspiranet, shall not exceed:

Option to renew: July 1, 2026 through June 30, 2027	\$74,292.00

Contract History and Price Reasonableness

Three (3) contracts for wraparound services were awarded as a result of competitive bid, Request for Proposal (RFP) DPARC-0632 for Traditional Wraparound and Wrap-Lite services. However, the current contracted providers do not service Kern County. To address this critical service need, and mitigate any interruption to the youth's service, DPSS is contracting (DPSS-00005512) with Aspiranet, a local Non-Profit California Organization, to provide wraparound services.

To ensure the Riverside County dependent youth and family/caregiver receive these wraparound services, DPSS is entering into an agreement via Single Source Justification (SSJ) No. 26-098 reviewed and assigned by County Purchasing on December 19, 2025.

 - I. Comply with requirements of satisfactory assurances under 45 CFR §164.512 relating to notice or qualified protective order in response to a third party's subpoena, discovery request, or other lawful process for the disclosure of PHI, which Contractor shall promptly notify County upon Contractor's receipt of such request from a third party.
 - J. Not require an individual to provide patient authorization for use or disclosure of PHI as a condition for treatment, payment, enrollment in any health plan (including the health plan administered by County), or eligibility of benefits, unless otherwise excepted under 45 CFR §164.508(b)(4) and authorized in writing by County.

Take reasonable steps to cure or end any pattern of activity or practice of its subcontractor of which Contractor becomes aware that constitute a material breach or violation of the subcontractor's obligations under the business associate contract with Contractor, and if such steps are unsuccessful, Contractor agrees to terminate its contract with the subcontractor if feasible.
6. **Access to PHI, Amendment and Disclosure Accounting.** Contractor agrees to:
- A. **Access to PHI, including ePHI.** Provide access to PHI, including ePHI if maintained electronically, in a designated record set to County or an individual as directed by County, within five (5) days of request from County, to satisfy the requirements of 45 CFR §164.524.

- A. Comply with the applicable requirements of the Security Rule, and implement administrative, physical, and technical safeguards that reasonably and appropriately protect the confidentiality, integrity, and availability of ePHI that Contractor creates, receives, maintains, or transmits on behalf of County in accordance with 45 CFR §164.308, §164.310, and §164.312;

 - H. Comply with any additional security requirements that are applicable to covered entities in Title 42 (Public Health and Welfare) of the United States Code, as may be amended from time to time, including but not limited to HITECH.

8. **Breach of Unsecured PHI.** In the case of breach of unsecured PHI, Contractor shall comply with the applicable provisions of 42 USC §17932 and 45 CFR Part 164, Subpart D, including but not limited to 45 CFR §164.410.
- A. **Discovery and notification.** Following the discovery of a breach of unsecured PHI, Contractor shall notify County in writing of such breach without unreasonable delay and in no case later than 60 calendar days after discovery of a breach, except as provided in 45 CFR §164.412.
- (1) **Breaches treated as discovered.** A breach is treated as discovered by Contractor as of the first day on which such breach is known to Contractor or, by exercising reasonable diligence, would have been known to Contractor, which includes any person, other than the person committing the breach, who is an employee, officer, or other agent of Contractor (determined in accordance with the federal common law of agency).
- (2) **Content of notification.** The written notification to County relating to breach of unsecured PHI shall include, to the extent possible, the following information if known (or can be reasonably obtained) by Contractor:
- (a) The identification of each individual whose unsecured PHI has been, or is reasonably believed by Contractor to have been accessed, acquired, used or disclosed during the breach;
 - (b) A brief description of what happened, including the date of the breach and the date of the discovery of the breach, if known;
 - (c) A description of the types of unsecured PHI involved in the breach, such as whether full name, social security number, date of birth, home address, account number, diagnosis, disability code, or other types of information were involved;

- C. **Breach log.** To the extent breach of unsecured PHI involves less than 500 individuals, Contractor shall maintain a log or other documentation of such breaches and provide such log or other documentation on an annual basis to County not later than fifteen (15) days after the end of each calendar year for submission to the Secretary.

- D. Delay of notification authorized by law enforcement.** If Contractor delays notification of breach of unsecured PHI pursuant to a law enforcement official's statement that required notification, notice or posting would impede a criminal investigation or cause damage to national security, Contractor shall maintain documentation sufficient to demonstrate its compliance with the requirements of 45 CFR §164.412.
- E. Payment of costs.** With respect to any breach of unsecured PHI caused solely by the Contractor's failure to comply with one or more of its obligations under this Addendum and/or the provisions of HITECH, HIPAA, the Privacy Rule or the Security Rule, Contractor agrees to pay any and all costs associated with providing all legally required notifications to individuals, media outlets, and the Secretary. This provision shall not be construed to limit or diminish Contractor's obligations to indemnify, defend and hold harmless County under Section 9 of this Addendum.
- F. Documentation.** Pursuant to 45 CFR §164.414(b), in the event Contractor's use or disclosure of PHI and/or ePHI violates the Privacy Rule, Contractor shall maintain documentation sufficient to demonstrate that all notifications were made by Contractor as required by 45 CFR Part 164, Subpart D, or that such use or disclosure did not constitute a breach, including Contractor's completed risk assessment and investigation documentation.
- G. Additional State Reporting Requirements.** The parties agree that this Section 8.G applies only if and/or when County, in its capacity as a licensed clinic, health facility, home health agency, or hospice, is required to report unlawful or unauthorized access, use, or disclosure of medical information under the more stringent requirements of California Health & Safety Code §1280.15. For purposes of this Section 8.G, "unauthorized" has the meaning given such term in California Health & Safety Code §1280.15(j)(2).
- (1) Contractor agrees to assist County to fulfill its reporting obligations to affected patients and to the California Department of Public Health ("CDPH") in a timely manner under the California Health & Safety Code §1280.15.
 - (2) Contractor agrees to report to County any unlawful or unauthorized access, use, or disclosure of patient's medical information without unreasonable delay and no later than two (2) business days after Contractor detects such incident. Contractor further agrees such report shall be made in writing, and shall include substantially the same types of information listed above in Section 8.A.2 (Content of Notification) as applicable to the unlawful or unauthorized access, use, or disclosure as defined above in this section, understanding and acknowledging that the term "breach" as used in Section 8.A.2 does not apply to California Health & Safety Code §1280.15.

9. Hold Harmless/Indemnification.

- A.** Contractor agrees to indemnify and hold harmless County, all Agencies, Districts, Special Districts and Departments of County, their respective directors, officers, Board of Supervisors, elected and appointed officials, employees, agents and representatives from any liability whatsoever, based or asserted upon any services of Contractor, its officers, employees, subcontractors, agents or representatives arising out of or in any way relating to this Addendum, including but not limited to property damage, bodily injury, death, or any other element of any kind or nature whatsoever arising from the performance of Contractor, its officers, agents, employees, subcontractors, agents or representatives from this Addendum. Contractor shall defend, at its sole expense, all costs and fees, including but not limited to attorney fees, cost of investigation, defense and settlements or awards, of County, all Agencies, Districts, Special Districts and Departments of County, their respective directors, officers, Board of Supervisors, elected and appointed officials, employees, agents or representatives in any claim or action based upon such alleged acts or omissions.

- B. With respect to any action or claim subject to indemnification herein by Contractor, Contractor shall, at their sole cost, have the right to use counsel of their choice, subject to the approval of County, which shall not be unreasonably withheld, and shall have the right to adjust, settle, or compromise any such action or claim without the prior consent of County; provided, however, that any such adjustment, settlement or compromise in no manner whatsoever limits or circumscribes Contractor's indemnification to County as set forth herein. Contractor's obligation to defend, indemnify and hold harmless County shall be subject to County having given Contractor written notice within a reasonable period of time of the claim or of the commencement of the related action, as the case may be, and information and reasonable assistance, at Contractor's expense, for the defense or settlement thereof. Contractor's obligation hereunder shall be satisfied when Contractor has provided to County the appropriate form of dismissal relieving County from any liability for the action or claim involved.
- C. The specified insurance limits required in the Underlying Agreement of this Addendum shall in no way limit or circumscribe Contractor's obligations to indemnify and hold harmless County herein from third party claims arising from issues of this Addendum.
- D. In the event there is conflict between this clause and California Civil Code §2782, this clause shall be interpreted to comply with Civil Code §2782. Such interpretation shall not relieve the Contractor from indemnifying County to the fullest extent allowed by law.
- E. In the event there is a conflict between this indemnification clause and an indemnification clause contained in the Underlying Agreement of this Addendum, this indemnification shall only apply to the subject issues included within this Addendum.
- 10. Term.** This Addendum shall commence upon the Effective Date and shall terminate when all PHI and/or ePHI provided by County to Contractor, or created or received by Contractor on behalf of County, is destroyed or returned to County, or, if it is infeasible to return or destroy PHI and/ePHI, protections are extended to such information, in accordance with section 11.B of this Addendum.

11. Termination.

- A. **Termination for Breach of Contract.** A breach of any provision of this Addendum by either party shall constitute a material breach of the Underlying Agreement and will provide grounds for terminating this Addendum and the Underlying Agreement with or without an opportunity to cure the breach, notwithstanding any provision in the Underlying Agreement to the contrary. Either party, upon written notice to the other party describing the breach, may take any of the following actions:
- (1) Terminate the Underlying Agreement and this Addendum, effective immediately, if the other party breaches a material provision of this Addendum.
 - (2) Provide the other party with an opportunity to cure the alleged material breach and in the event the other party fails to cure the breach to the satisfaction of the non-breaching party in a timely manner, the non-breaching party has the right to immediately terminate the Underlying Agreement and this Addendum.
 - (3) If termination of the Underlying Agreement is not feasible, the breaching party, upon the request of the non-breaching party, shall implement, at its own expense, a plan to cure the breach and report regularly on its compliance with such plan to the non-breaching party.

B. Effect of Termination.

- (1) Upon termination of this Addendum, for any reason, Contractor shall return or, if agreed to in writing by County, destroy all PHI and/or ePHI received from County, or created or received by the Contractor on behalf of County, and, in the event of destruction, Contractor shall certify such destruction, in writing, to County. This provision shall apply to all PHI and/or ePHI which are in the possession of subcontractors or agents of Contractor. Contractor shall retain no copies of PHI and/or ePHI, except as provided below in paragraph (2) of this section.
- (2) In the event that Contractor determines that returning or destroying the PHI and/or ePHI is not feasible, Contractor shall provide written notification to County of the conditions that make such return or destruction not feasible. Upon determination by Contractor that return or destruction of PHI and/or ePHI is not feasible, Contractor shall extend the protections of this Addendum to such PHI and/or ePHI and limit further uses and disclosures of such PHI and/or ePHI to those purposes which make the return or destruction not feasible, for so long as Contractor maintains such PHI and/or ePHI.

12. General Provisions.

- A. **Retention Period.** Whenever Contractor is required to document or maintain documentation pursuant to the terms of this Addendum, Contractor shall retain such documentation for 6 years from the date of its creation or as otherwise prescribed by law, whichever is later.
- B. **Amendment.** The parties agree to take such action as is necessary to amend this Addendum from time to time as is necessary for County to comply with HITECH, the Privacy Rule, Security Rule, and HIPAA generally.
- C. **Survival.** The obligations of Contractor under Sections 3, 5, 6, 7, 8, 9, 11.B and 12.A of this Addendum shall survive the termination or expiration of this Addendum.
- D. **Regulatory and Statutory References.** A reference in this Addendum to a section in HITECH, HIPAA, the Privacy Rule and/or Security Rule means the section(s) as in effect or as amended.
- E. **Conflicts.** The provisions of this Addendum shall prevail over any provisions in the Underlying Agreement that conflict or appear inconsistent with any provision in this Addendum.
- F. **Interpretation of Addendum.**
 - (1) This Addendum shall be construed to be part of the Underlying Agreement as one document. The purpose is to supplement the Underlying Agreement to include the requirements of the Privacy Rule, Security Rule, HIPAA and HITECH.
 - (2) Any ambiguity between this Addendum and the Underlying Agreement shall be resolved to permit County to comply with the Privacy Rule, Security Rule, HIPAA and HITECH generally.

PII Privacy and Security Standards

I. PHYSICAL SECURITY

The Contractor shall ensure PII is used and stored in an area that is physically safe from access by unauthorized persons at all times. The Contractor agrees to safeguard PII from loss, theft, or inadvertent disclosure and, therefore, agrees to:

- A. Secure all areas of the Contractor facilities where staff assist in the administration of their program and use, disclose, or store PII.
- B. These areas shall be restricted to only allow access to authorized individuals by using one or more of the following:
 1. Properly coded key cards
 2. Authorized door keys
 3. Official identification
- C. Issue identification badges to Contractor staff.
- D. Require Contractor staff to wear these badges where PII is used, disclosed, or stored.
- E. Ensure each physical location, where PII is used, disclosed, or stored, has procedures and controls that ensure an individual who is terminated from access to the facility is promptly escorted from the facility by an authorized employee and access is revoked.
- F. Ensure there are security guards or a monitored alarm system at all times at the Contractor facilities and leased facilities where five hundred (500) or more individually identifiable records of PII is used, disclosed, or stored. Video surveillance systems are recommended.
- G. Ensure data centers with servers, data storage devices, and/or critical network infrastructure involved in the use, storage, and/or processing of PII have perimeter security and physical access controls that limit access to only authorized staff. Visitors to the data center area must be escorted at all times by authorized staff.
- H. Store paper records with PII in locked spaces, such as locked file cabinets, locked file rooms, locked desks, or locked offices in facilities which are multi-use meaning that there are County and non-County functions in one building in work areas that are not securely segregated from each other. It is recommended that all PII be locked up when unattended at any time, not just within multi-use facilities.
- I. Use all reasonable measures to prevent non-authorized personnel and visitors from having access to, control of, or viewing PII.

II. TECHNICAL SECURITY CONTROLS

- A. Workstation/Laptop Encryption. All workstations and laptops, which use, store and/or process PII, must be encrypted using a FIPS 140-2 certified algorithm 128 bit or higher, such as Advanced Encryption Standard (AES). The encryption solution must be full disk. It is encouraged, when available and when feasible, that the encryption be 256 bit.
- B. Server Security. Servers containing unencrypted PII must have sufficient administrative, physical, and technical controls in place to protect that data, based upon a risk assessment/system security review. It is recommended to follow the guidelines documented in the latest revision of the National Institute of Standards and Technology (NIST) Special Publication (SP) 800-53, Security and Privacy Controls for Federal Information Systems and Organizations.

- C. Minimum Necessary. Only the minimum necessary amount of PII required to perform required business functions may be accessed, copied, downloaded, or exported.
- D. Mobile Device and Removable Media. All electronic files, which contain PII data, must be encrypted when stored on any mobile device or removable media (i.e. USB drives, CD/DVD, smartphones, tablets, backup tapes etc.). Encryption must be a FIPS 140-2 certified algorithm 128 bit or higher, such as AES. It is encouraged, when available and when feasible, that the encryption be 256 bit.
- E. Antivirus Software. All workstations, laptops and other systems, which process and/or store PII, must install and actively use an antivirus software solution. Antivirus software should have automatic updates for definitions scheduled at least daily.
- F. Patch Management.
1. All workstations, laptops and other systems, which process and/or store PII, must have critical security patches applied, with system reboot if necessary.
 2. There must be a documented patch management process that determines installation timeframe based on risk assessment and vendor recommendations.
 3. At a maximum, all applicable patches deemed as critical must be installed within thirty (30) days of vendor release. It is recommended that critical patches which are high risk be installed within seven (7) days.
 4. Applications and systems that cannot be patched within this time frame, due to significant operational reasons, must have compensatory controls implemented to minimize risk.
- G. User IDs and Password Controls.
1. All users must be issued a unique user name for accessing PII.
 2. Username must be promptly disabled, deleted, or the password changed upon the transfer or termination of an employee within twenty- four (24) hours. Note: Twenty-four (24) hours is defined as one (1) working day.
 3. Passwords are not to be shared.
 4. Passwords must be at least eight (8) characters.
 5. Passwords must be a non-dictionary word.
 6. Passwords must not be stored in readable format on the computer or server.
 7. Passwords must be changed every ninety (90) days or less. It is recommended that passwords be required to be changed every sixty (60) days or less.
 8. Passwords must be changed if revealed or compromised.
 9. Passwords must be composed of characters from at least three (3) of the following four (4) groups from the standard keyboard:
 - a. Upper case letters (A-Z)
 - b. Lower case letters (a-z)
 - c. Arabic numerals (0-9)
 - d. Special characters (!,@,#, etc.)
- H. Data Destruction. When no longer needed, all PII must be cleared, purged, or destroyed consistent with NIST SP 800-88, Guidelines for Media Sanitization, such that the PII cannot be retrieved.
- I. System Timeout. The systems providing access to PII must provide an automatic timeout, requiring re-authentication of the user session after no more than twenty (20) minutes of inactivity.
- J. Warning Banners. The systems providing access to PII must display a warning banner stating, at a minimum:
1. Data is confidential;
 2. Systems are logged;

3. System use is for business purposes only, by authorized users; and
4. Users shall log off the system immediately if they do not agree with these requirements.

K. System Logging.

1. The systems which provide access to PII must maintain an automated audit trail that can identify the user or system process which initiates a request for PII or alters PII.
2. The audit trail shall:
 - a. Be date and time stamped;
 - b. Log both successful and failed accesses;
 - c. Be read-access only; and
 - d. Be restricted to authorized users.
3. If PII is stored in a database, database logging functionality shall be enabled.
4. Audit trail data shall be archived for at least three (3) years from the occurrence.

L. Access Controls. The system providing access to PII shall use role-based access controls for all user authentications, enforcing the principle of least privilege.

M. Transmission Encryption.

1. All data transmissions of PII outside of a secure internal network must be encrypted using a Federal Information Processing Standard (FIPS) 140-2 certified algorithm that is 128 bit or higher, such as Advanced Encryption Standard (AES) or Transport Layer Security (TLS). It is encouraged, when available and when feasible, that 256 bit encryption be used.
2. Encryption can be end to end at the network level, or the data files containing PII can be encrypted.
3. This requirement pertains to any type of PII in motion such as website access, file transfer, and email.

N. Intrusion Prevention. All systems involved in accessing, storing, transporting, and protecting PII, which are accessible through the Internet, must be protected by an intrusion detection and prevention solution.

III. AUDIT CONTROLS

A. System Security Review.

1. The Contractor must ensure audit control mechanisms are in place.
2. All systems processing and/or storing PII must have at least an annual system risk assessment/security review that ensures administrative, physical, and technical controls are functioning effectively and provide an adequate level of protection.
3. Reviews should include vulnerability scanning tools.

B. Log Reviews. All systems processing and/or storing PII must have a process or automated procedure in place to review system logs for unauthorized access.

C. Change Control. All systems processing and/or storing PII must have a documented change control process that ensures separation of duties and protects the confidentiality, integrity and availability of data.

IV. BUSINESS CONTINUITY / DISASTER RECOVERY CONTROLS

A. Emergency Mode Operation Plan. The Contractor must establish a documented plan to enable continuation of critical business processes and protection of the security of PII kept in an electronic format in the event of an emergency. Emergency means any circumstance or situation that causes normal computer operations to become unavailable for use in performing the work required under this Agreement for more than twenty-four (24) hours.

- B. Data Centers. Data centers with servers, data storage devices, and critical network infrastructure involved in the use, storage and/or processing of PII, must include environmental protection such as cooling, power, and fire prevention, detection, and suppression.
- C. Data Backup and Recovery Plan.
 - 1. The Contractor shall have established documented procedures to backup PII to maintain retrievable exact copies of PII.
 - 2. The documented backup procedures shall contain a schedule which includes incremental and full backups.
 - 3. The procedures shall include storing backups offsite.
 - 4. The procedures shall ensure an inventory of backup media.
 - 5. The Contractor shall have established documented procedures to recover PII data.
 - 6. The documented recovery procedures shall include an estimate of the amount of time needed to restore the PII data.

V. PAPER DOCUMENT CONTROLS

- A. Supervision of Data. The PII in paper form shall not be left unattended at any time, unless it is locked in a file cabinet, file room, desk or office. Unattended means that information may be observed by an individual not authorized to access the information.
- B. Data in Vehicles. The Contractor shall have policies that include, based on applicable risk factors, a description of the circumstances under which staff can transport PII, as well as the physical security requirements during transport. A Contractor that chooses to permit its staff to leave records unattended in vehicles must include provisions in its policies to ensure the PII is stored in a non-visible area such as a trunk, that the vehicle is locked, and under no circumstances permit PII be left unattended in a vehicle overnight or for other extended periods of time.
- C. Public Modes of Transportation. The PII in paper form shall not be left unattended at any time in airplanes, buses, trains, etc., including baggage areas. This should be included in training due to the nature of the risk.

Subject: Request for Traditional Wraparound Services

The below information is provided in support of my department requesting review for a single or sole source purchase/agreement with a cost of \$5,000 or more for goods and/or services.

Single Source Sole Source

Supporting Documents: indicate which are included in the request from the list below.

Supplier Quote Supplier Sole Source Letter Final draft agreement
 Final draft Form 11 | H-11 approved by RCIT/TSOC | Grant Agreement
 Other:

1. Requested Supplier Name: Aspiranet
2. Supplier ID: 0000071119

- a. Describe the goods/service being requested:
DPSS has engaged Aspiranet, a California based Non-Profit Organization to provide Traditional Wraparound services for a Riverside County youth who has been placed with their family in Kern County. Wraparound Services are individualized, comprehensive services for youth with complex multi-dimensional challenges. Wraparound services focus on building strengths of each eligible child, youth and family and are designed to address their unique and changing needs.
- b. Explain the unique features of the goods/services being requested from this supplier:
DPSS has engaged Aspiranet as an available provider of Traditional Wraparound Services, due to the inability of existing contracted providers – Olive Crest, Seneca Family of Agencies and Victor Community Support Services, Inc. (awarded via RFP DPARC-0632), to service youth within this particular location.

c. What are the operational benefits to your department?

Senate Bill 163 (Statutes of Welfare and Institutions Code 18250) authorizes counties to implement a Wraparound Program to provide foster youth with alternatives to group home care and to provide intensive services to you and the families/caregivers that ultimately improve outcomes of these children.

A Riverside County dependent placed in Kern County is in need of comprehensive wraparound services to ensure stability of placement, contribute to child safety, permanency as well as youth and family/caregiver well-being outcomes for our service population.

DPSS is working with Aspiranet to provide wraparound services to the youth where they are currently placed. This will allow the youth to maintain the same care team and reduce the possibility of service disruption.

3. Provide details on any cost benefits/discounts.

Wraparound services are anticipated for approximately eight (8) months with a cost of \$6191.00 per month. This agreement has the option to renew past the eight (8) months to allow for additional time if needed. This fee amount is aligned with existing provider contracts for Traditional Wraparound Services.

4. Can this request be formally bid out or procured using a viable solution such as an existing cooperative agreement or existing contract with another department or public entity?

Yes No

If yes, please explain why you are requesting to utilize an SSJ process?

Three (3) contracts for wraparound services were awarded via Request for Proposal (RFP) DPARC-0632 for Traditional Wraparound and Wrap-Lite services. However, the current contracted providers **do not** service Kern County. To address this critical service need, and mitigate any interruption to the youth's service, DPSS is contracting (DPSS-0005512) with Aspiranet, a local Non-Profit California Organization, to provide this service.

5. Has your department previously requested/received an assigned tracking number for a single or sole source request for this Supplier for the goods/service requested now? (If yes, please provide the reviewed single or sole source tracking number).
