BACKGROUND:

Summary

On September 9, 2025 (Agenda Item 3.33), the County of Riverside Board of Supervisors approved the Initiation of an Amendment to Ordinance 452 that directed the Transportation Department to prepare and process the ordinance amendment. On January 27, 2026 (Agenda Item 21.2), the Board of Supervisors held a public hearing and introduced Ordinance 452.254, which will establish Speed Zones Enforceable by Radar Speed Detection Equipment in the Lakeland Village, Temecula, Winchester, and Desert Hot Springs areas.

The County of Riverside Transportation Department conducted Engineering and Traffic Surveys (E&TS) in accordance with the California Vehicle Code (CVC), Sections 627 and 40802, for various county-maintained roads in the Lakeland Village, Temecula, Winchester, and Desert Hot Springs areas in Riverside County.

Based upon the results of the E&TS for these roads, the Transportation Department recommends designated radar-enforceable speed limits along the road segments summarized in the List of Speed Zone tables and has determined these speed limits to be appropriate to facilitate the safe and orderly movement of vehicular traffic.

Compliance with CEQA

Ordinance No. 452.254 is exempt from CEQA pursuant to State CEQA Guidelines Section 15061(b)(3) because it can be seen with certainty there is no possibility the Ordinance will have a significant effect on the environment.

Impact on Residents and Businesses

The establishing and posting of appropriate speed limits promotes safe and orderly movement of vehicular traffic and enables the CHP to use radar equipment to enforce the speed limits. Since the recommended speed limits were determined based on actual speed surveys, the majority of motorists are already driving at or below the recommended speed limits. Posted speed limits also guide motorists to drive at a reasonable speed in unfamiliar locations.

Additional Fiscal Information

The cost for establishing the recommended speed limits is primarily for the installation of speed limit signs, which is estimated at about \$3,500.
