BACKGROUND:

Summary

Riverside University Health System – Behavioral Health (RUHS-BH) operates a continuum of care system that consists of County-operated and contracted service providers delivering a variety of mental health treatment services within each geographic region of Riverside County.

CWICs are voluntary outpatient alternatives to acute inpatient and involuntary treatment that provide crisis stabilization services lasting less than 24 hours. Services are provided to a member for a condition that requires more timely response than a regularly scheduled visit. Service activities may include but are not limited to assessment, collateral, individual and group therapy. Crisis Stabilization services are provided at a licensed/certified site. In order to establish a recovery-based environment, the program provides services in a welcoming environment with enriched peer-to-peer support. These crisis services are provided on a voluntary basis to persons living throughout Riverside County.

Impact on Residents and Businesses

These services are a component of the Department's system of care aimed at improving the health and safety of consumers and the community. The CWIC expands the capacity to provide mental health services to adolescents, youth, and adult citizens/clients of Riverside County who experience sudden mental health crisis in the community, or whose treatment in the standard outpatient setting has been disrupted, with a projected soft launch of the facility anticipated in Spring 2026.

Additional Fiscal Information

The Agreement amounts outlined in Attachment A are funded by RUHS-BH Federal and State funds, and have termination clauses in the event that applicable funds become unavailable for service provision. There are sufficient appropriations in the Department's FY2025/2026 budget. No additional County funds are required.

Contract History and Price Reasonableness

On March 13, 2025, Request for Proposal (RFP) #MHARC-297 for Mental Health Urgent Care Services – Indio Behavioral Health Crisis Campus (renamed Indio Behavioral Health Crisis Walk In Center via Addendum 2) was released via Public Purchase, notifying 289 organizations and 138 individuals; 19 organizations viewed or downloaded the RFP In addition to the Public Purchase notification, an email notification was sent to 138 individuals on the Mental Health

Urgent Care Services – Indio Behavioral Health Crisis Campus Bidders List provided by Behavioral Health, informing potential bidders that the County was seeking proposals for these services.

A mandatory Pre-Bid Meeting was held with nine participants representing four organizations. The RFP closed on June 3, 2025, with two proposals received. Wellness Equity Alliance (WEA CA, PC) was determined to be the most responsive and responsible bidder. Therefore, the evaluation committee recommended awarding the agreement to WEA CA, PC to provide services at the Indio Behavioral Health Crisis Walk in Center.

SCOPE OF WORK**

Level of Care/Services:	Crisis Support System of Care
Contractor:	Wellness Equity Alliance (WEA)
Dept ID:	4100206494/74700/530280

The following Scope of Work defines the requirements for the delivery of contracted Behavioral Health Services by the CONTRACTOR on behalf of the COUNTY and establishes the standards for service delivery, authorization, documentation, and compliance applicable to the CONTRACTOR.

I. PURPOSE:

Riverside University Health System – Behavioral Health (RUHS-BH) operates a continuum of care system, composed of County-operated clinics and contract service providers, delivering a variety of treatment services in each geographic region of the County. Crisis Walk in Centers (CWICs) are voluntary outpatient alternatives to acute inpatient and involuntary treatment that provide crisis stabilization services lasting less than 24 hours. Services are provided to, or on behalf of, a beneficiary for a condition that requires more timely response than a regularly scheduled visit. Service activities may include but are not limited to assessment, collateral, individual and group therapy. Crisis Stabilization is provided onsite, which has been certified by the appropriate governmental agencies to provide these services. In order to establish a recovery-based environment, the program provides services in a welcoming environment with enriched peer-to-peer support. These crisis services are provided on a voluntary basis to persons living throughout Riverside County.

Crisis Walk in Center Services are intended to provide an enriched peer-to-peer community-based alternative to psychiatric hospitalization based on the Recovery Model of values and principles for youth and adults experiencing acute psychiatric episodes with or without co-occurring disorders including substance abuse.

Services will be provided for up to 20 members at a given time (12 adults, 4 youth and 4 adolescents), 24 hours a day 365 days a year (24/7).

II. SERVICE LOCATIONS

CONTRACTOR is approved to provide the services outlined in this Scope of Work at all locations mutually agreed upon by COUNTY, provided such locations are properly certified and/or licensed, as applicable, by DHCS and enrolled as Medi-Cal provider sites. All approved service locations shall be accurately identified and maintained on CONTRACTOR's Schedule, Attachments or Exhibits as applicable, and services shall be provided only at locations approved by COUNTY and DHCS for the applicable Medi-Cal program and certification type.

III. SCOPE OF SERVICES:

A. Target Population To Be Served

The population to be served will be children, adolescents, and adult residents of Riverside County (ages 5 and above) who are referred by Riverside University Health System - Behavioral Health (RUHS - BH) system of care or their designees (e.g., private inpatient psychiatric facilities), stakeholders such as Law Enforcement, Emergency Departments, Mobile Crisis Response Teams, Homeless Teams, Substance Abuse, County Clinics, schools, family, friends, and self-referrals. Admissions to the CWIC program include persons with mental health disorders that are at imminent risk of psychiatric hospitalization. If a

member is LPS Conserved, the member shall receive services on a voluntary basis and/or as authorized by a court appointed conservator.

B. Program Goals

The primary goals of the Crisis Walk in Center Services are to provide crisis stabilization services to all persons; youth ages 5 and above, adults ages 18 and above including Transition Age Youth (18-25), Adults (26-59) and Older Adults (60+), and older adults meeting CALAIM DHCS access criteria. CONTRACTOR(s) will utilize the System of Periods of Allowable Treatment for Crisis Stabilization Services as defined by Title 9, § 1840.105, 1840.322, and 1840.368.

Crisis Walk in Center Services are intended to stabilize members in acute crises in order to eliminate or shorten the need for inpatient hospitalization. Activities in support of this goal include assessment, mental health counseling including individual and group therapy and peer support, including treatment for co-occurring substance abuse disorders, Wellness and Recovery based group interventions, case management, medication services including the use of Medications for Addiction Treatment (MAT), discharge planning and successful linkages to community support services with the goal of minimizing the risk of hospitalization, overdose or return to routine crisis based care. For youth 16 years and older the minor can consent to OUD MAT treatment with buprenorphine, for minors under the age of 16 parental consent must be given and documented.

Services will be based on the Recovery Model of care. Interventions will focus on member empowerment; symptom reduction; reduction of barriers to self-sufficiency in the community and maximization of each member's engagement in his or her recovery. The goal is to improve the quality of their life through strong family/support person(s) participation in the recovery plan, and by instilling hope for long-term recovery. In this social recovery setting, guests will use the therapeutic community, particularly peer support and group living experiences to develop the skills needed to deal with their current life situation, crisis or stress.

1. Contractor shall provide 24/7 outpatient Crisis Walk in Center Services for individuals age 5 and above. The design of the Crisis Walk in Center supports separate programming space for adults and youth. Minors will be located in a separate physical space from adults. Additionally, minors may also be separated by age and/or developmental needs (e.g. age 5-11 and ages 12-17 or thereabouts).
2. CONTRACTOR shall provide and adhere to outcome measures, as defined by RUHS-BH, for evaluating the effectiveness of its program performance. Outcome measures to include but not be limited to: LOS, readmits within 48 hours, readmits within 2 weeks, and other recidivist indicators. 3. CONTRACTOR shall develop and implement a revenue-generating plan. CONTRACTOR shall ensure that members with both Medi-Cal and Medicare coverage have full access to such services available to them and that services are properly claimed as allowed. Medi-Cal eligible services for Medicare members will not be reimbursed until RUHS-BH receives a Medicare remittance advice.

CONTRACTOR shall develop and implement Cultural Competency Plan that is in conjunction with Mental Health Plan (MHP). The Plan will consist of a statement and assurances to employ a culturally diverse bilingual and bicultural multidisciplinary staff. Special attention shall be placed in hiring Hispanic American and African- American staff who are culturally and linguistically appropriate. Central to providing peer to peer services is a robust multi-disciplined team with lived member experience. CONTRACTOR shall insure, as part of that Plan, that staff receive on-going training in cultural competency. (Title 9, CCR, Section 1820.211 and 1810.410).

4. CONTRACTOR service facility must be accessible by public transportation.

C. Program Objectives

To provide an outpatient alternative to acute inpatient and involuntary treatment by providing crisis stabilization service lasting less than 24 hours. Services will be provided to or on behalf of a member for a condition that requires more timely response than a regularly scheduled visit. Service activities may include but are not limited to assessment, collateral, medication, MAT, peer support, linkage, discharge planning, and therapy. Crisis stabilization must be provided on site at a 24-hour health facility, hospital based outpatient program, or at other provider sites, which have been certified by the appropriate Governmental Agency to provide crisis stabilization services. Crisis Walk in Center Services may be provided as a stand-alone facility. In order to establish a Recovery based, welcoming environment the facility design and staffing plan shall embrace a home like setting as much as possible. It is intended that crisis services will be provided on a voluntary basis to persons living throughout the County.

The following factors are key elements in developing and sustaining an effective BH crisis diversion facility:

The crisis diversion facility model intentionally addresses and overcomes fragmentation and gaps in the service delivery system with alignment and integration. The model crisis diversion facility does not exist in a vacuum. It serves as the hub for the crisis continuum of care and structured care coordination with community-based services to support recovery and stability. Historically in the American BH service delivery system, mental health and substance use services are separated by funding streams, regulations, and divergent treatment cultures. As conventional wisdom and the evidence base grow to support integrated whole-person care, the crisis diversion facility presents not only the opportunity, but the imperative to integrate mental health and substance use disorder services. The model crisis diversion facility incorporates standardized screening, assessment, and provision of evidence-based substance use treatment to address the high number of co-occurring mental illness and substance use conditions among the population relying on the safety net, as well as rampant instance of opioid and other substance use disorders leading to crisis. Model facilities have the capacity to provide a full continuum of Medication Assisted Treatment and other evidence-based SUD services on site and have a robust referral partnership that includes warm hand offs and transportation to assure persons served are effectively linked with SUD services.

These services are also intended to meet the following objectives:

1. Provide crisis stabilization services to ensure that members have a safe, stable, and comfortable stay (less than 24 hours);
2. Assist members in resolving their psychiatric crisis sufficiently to allow them to successfully transition to less intensive levels of care in the community;

3. Reduce members' functional impairment due to psychiatric and concurrent substance use disorder symptoms;
4. Assist members in developing a recovery plan that obtains housing, food, clothing, monetary self-sufficiency, and improved self-directed recovery necessary for a successful discharge from the Crisis Walk in Center;
5. Avoid psychiatric hospitalization or criminal incarceration following the stabilization of their psychiatric crisis;
6. Provide medication services and support including increasing medication understanding, improve access to medical and dental healthcare, and successfully link members to outpatient services following discharge; and
7. Decrease substance misuse, overdose risk, and related risky behaviors.
8. Creating effective alternatives for those in crisis seeking mental health care.
9. Improving the client experience in achieving and maintaining wellness.
10. Providing interventions necessary to reduce psychiatric hospitalizations and/or incarcerations.
11. Providing interventions necessary to reduce emergency department visits for urgent mental health needs.
12. Improving care coordination across the system, including linkages to other needed resources, and timely access to mental health services.
13. Ensure every client admitted to the CWIC are screened for risk by an LPHA, LPHA-Waived, graduate student (who are under the supervision of an LPHA) or medical staff and have a completed Crisis Screening and Assessment.
14. Provide brief crisis intervention and include engagement, assessment, plan development, peer support, and when indicated, medication services.
15. Provide strength-based, client-centered engagement and crisis management skills to support de-escalation and assist clients to identify, manage, and cope with triggers.
16. Inclusion of significant others/family/parents/caregivers/guardians, as appropriate, in all treatment planning and decision-making regarding the client's services as documented in accordance with COUNTY documentation standards.
17. Ensure education through verbal and written communication to clients and providers that the CWIC is not an emergency department – including the distinction between emergency care and mental health urgent care.
18. Individualized, person-centered, recovery-based, and trauma informed services in order to build upon strengths and promote stabilization in the community.

19. Provide linkage to the Riverside University Health Systems Behavioral Health Plan (MHP) and Substance Abuse Prevention and Treatment (SAPT) for clients assessed as meeting medical necessity for COUNTY services as determined by the evaluating LPHA/LPHA-Waived staff. CONTRACTOR shall make referrals to appropriate resources and document in the EHR.
20. Identify appropriate alternative services if a client does not meet medical necessity for specialty mental health services, as determined by the evaluating LPHA/LPHA-Waived staff and/or MHRS and document in the EHR.
21. Identify Primary Care Provider (PCP) resources and when necessary, support follow-up care.

Failure to attend this training will result in delay of any reimbursements to the CONTRACTOR.
3. CONTRACTOR will be notified in writing by COUNTY, if the payment reconciliation documents have not been received within the specified length of time. Future monthly reimbursements will be withheld if the cost reconciliation documents contain errors that are not corrected within ten (10) calendar days of written or verbal notification from the COUNTY. 4. The COUNTY will conduct Program Monitoring Review and/or Contract Monitoring Team Review (CMT). Upon completion of monitoring, CONTRACTOR will be mailed a report summarizing the results of the site visit. If and when necessary, a corrective Action Plan will be submitted by CONTRACTOR within thirty (30) calendar days of receipt of the report. CONTRACTOR'S failure to respond within thirty (30) calendar days will result in withholding of all payment until the corrective plan of action is received. CONTRACTOR'S response shall identify time frames for implementing the corrective action. Failure to provide adequate response or documentation for this or subsequent year's Agreements may result in Agreement

payment withholding and/or a disallowance to be paid in full upon demand.

N. TRAINING:

CONTRACTOR understands that as the COUNTY implements its current MIS to comply with Federal, State and/or local funding and service delivery requirements, CONTRACTOR will, therefore, be responsible for sending at least one representative to receive all applicable COUNTY training associated with, but not limited to, applicable service data entry, client registration, billing and invoicing (batching), and learning how to appropriately and successfully utilize and/or operate the current and/or upgraded MIS as specified for use by the COUNTY under this Agreement. The COUNTY will notify the CONTRACTOR when such training is required and available.

O. FURNISHINGS AND EQUIPMENT

1. **OWNERSHIP:**

If equipment and furnishings were previously purchased through this Agreement, CONTRACTOR acknowledges that these items are the property of COUNTY. Procedures provided by COUNTY for the acquisition, inventory, control and disposition of the equipment and the acquisition and payment for maintenance services to such equipment (e.g. office machine repair) are to be followed.

2. **INVENTORY:**

CONTRACTOR shall maintain an internal inventory control system that will provide accountability for equipment and furnishings purchased through this Agreement, regardless of cost. The inventory control system shall record at a minimum the following information when property is acquired: date acquired; property description (to include model number); property identification number (serial number); cost or other basis of valuation; funding source; and rate of depreciation or depreciation schedule, if applicable. An updated inventory list shall be provided to COUNTY on a semi-annual basis and filed with the annual cost reconciliation. Once COUNTY is in receipt of this list, COUNTY inventory tags will be issued to CONTRACTOR, and are to be attached to the item as directed.

3. **DISPOSAL:**

Approval must be obtained from COUNTY prior to the disposal of any property purchased with funds from this Agreement, regardless of the acquisition value. Disposal (which includes sale, trade-in, discard, or transfer to another agency or program) shall not occur until approval is received in writing from COUNTY.

4. **CAPITAL ASSETS:**

- a. Capital assets are tangible or intangible assets exceeding \$5,000 that benefit an agency more than a single fiscal year. For capital assets approved for purchase by COUNTY, allowable and non-allowable cost information and depreciation requirements can be found in the Center for Medicare and Medicaid Services (CMS) Publication 15, Provider Reimbursement Manual (PRM) Parts I & II. It is CONTRACTOR'S responsibility to ensure compliance with these requirements.
- b. Any capital asset that was acquired or improved in whole or in part with funds disbursed under this Agreement, or under any previous Agreement between

COUNTY and CONTRACTOR, shall either be, at the election of COUNTY as determined by the Director or designee: (1) transferred to COUNTY including all title and legal ownership rights; or (2) disposed of and proceeds paid to COUNTY in a manner that results in COUNTY being reimbursed in the amount of the current fair market value of the real or personal property less any portion of the current value attributable to CONTRACTOR's out of pocket expenditures using non-county funds for acquisition of, or improvement to, such real or personal property and less any direct and reasonable costs of disposition.
