**BACKGROUND:**

**Summary**

Riverside County Ordinance No. 695 Requiring the Abatement of Hazardous Vegetation established an on-going program to abate hazardous vegetation, while at the same time protecting rare and sensitive plant and animal species and the environment. The purpose of the Hazard Reduction program is to reduce or eliminate fire hazards created by vegetative growth and the accumulation of combustible debris, which poses a danger to the health, safety and welfare of the residents in the vicinity of any real property. Fire Prevention Technicians annually inspect unimproved parcels within the unincorporated areas of the County of Riverside, as defined by Ordinance No. 695.

Once inspections are completed, an "Order to Abate" is sent to each owner of record. The order advises the parcel owner of their obligation to comply within thirty days from the date of notice. Upon re-inspection, the Riverside County Hazard Reduction program turns over any parcel found to be non-compliant to the County Contractors for abatement. At the conclusion of the abatement, a bill is issued to the parcel owner of record, to reimburse the County for the expense of abatement, along with an administrative fee of \$254. This administrative fee was approved by the Board of Supervisors by Resolution No. 2011-080 with a public hearing on June 28, 2011. If not paid, then the County has the ability to recover abatement costs by assessing real property. This assessment incorporates the contactor's costs and the administrative fee. The County is then able to recover costs through the property tax process.

The properties that are subject to this assessment are attached as Attachment "A" to the resolution. The resolution and attachment A will also be included in the presentation for the public hearing on June 23, 2026. The adoption of Resolution No. 2026-066 in the public hearing on June 23, 2026, and of the list of those parcels not in compliance and subject to the abatement fee is the final step required under the Health and Safety Code section 14910 and Ordinance No. 695 to establish assessments and liens on those parcels.

The property owner can appeal an "Order to abate" to question the requirement to clear hazardous vegetation from their property. If any owners have a concern with the invoice sent after hazardous vegetation has been abated by a County contractor, they can contact the Hazard Reduction office. The Hazard Reduction office has an administrative process to address concerns or errors regarding invoices. This process includes the Assistant Fire

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

Marshal explaining the abatement process, answering questions, verifying the before and after pictures match the property, and with concurrence of the Deputy Fire Marshal correcting any errors found within the process.

**Impact on Residents and Businesses**

The Hazard Reduction program is designed to protect life, property and the environment. Voluntary compliance is the primary goal for the program. Each parcel owner is provided with the opportunity to abate the property prior to the County conducting the abatement. The owner also has an opportunity to reimburse the County the cost of abatement prior to the lien process being initiated.

**Additional Fiscal Information**

The abatement charges for any work performed by the contractor and the County administrative fee will be included in the property owner's property tax statement as a special assessment. The Board of Supervisors approved the administrative fee of \$254 by Resolution No. 2011-080 with a public hearing on June 28, 2011. The current total parcels are 197 and the total amount to be assessed is \$142,749. The assessments will reimburse the department costs, which are included in the Department's budget and funded by the General Fund.
