C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Summary

The Department of Environmental Health (DEH) oversees eleven (11) waste hauler Franchise Agreements for Solid Waste Collection Service (Agreement) for most of the unincorporated portions of Riverside County. In September of 2024, amended and restated agreements were approved by the Board of Supervisors, which included a provision requiring the submission of annual hauler performance reports to the Board.

Each year, the Franchise Waste Haulers (Franchisee) must submit a written Performance Report to the Board. The report is intended to provide the Board with an overview of the Franchisee's performance during the prior calendar year, as well as highlighting any potential challenges or opportunities for the year ahead. The Performance Report includes, but is not limited to, the following.

1. The number of customers serviced
2. Tons of material collected and diverted
3. Complaints received and resolved
4. Community cleanups provided
5. Outreach activities

The attached reports cover the 2025 calendar year and are for the following franchise areas.

1. Burrtec Waste and Recycling Services, LLC (Burrtec) – Franchise Area 12
2. CR&R Incorporated (CR&R) – Franchise Areas 5, 6, 7, 8, 9 and 13
3. Desert Valley Disposal, Inc (DVD) – Franchise Area 10
4. Waste Management Collection and Recycling, Inc (WMI) – Franchise Areas 1, 3, and 4

The Performance Reports have been reviewed by the DEH prior to presentation to the Board to ensure accuracy, consistency, and alignment with Franchise Agreement requirements. This review includes verifying that the information presented is consistent with data submitted throughout the reporting period, as well as confirming that reported activities reflect the Franchisee's operational performance, complaint status, and service delivery standards.

As the oversight agency for the eleven Agreements, DEH administers a dedicated program that monitors compliance and submits quarterly reports to the State of California, demonstrating the

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,
STATE OF CALIFORNIA**

unincorporated County's adherence to state-mandated standards for solid waste disposal and organic waste diversion. Those oversight activities can include daily interactions with Franchisee representatives, Riverside County residents, or business owners; routinely addressing any issues with service delivery, pricing, and roadside waste collection; reviewing data on disposal and diversion activities; and many other activities. Any compliance issues identified in a Franchisee's annual Performance Report are addressed through DEH's ongoing oversight and monitoring processes and are not subject to action by the Board as part of accepting the report.

Impact on Residents and Businesses

These required reports document the Franchisee's performance and support oversight of program implementation, outcomes, and compliance under the Agreements approved by the Board. They also provide insight into how services are delivered to residents and businesses, including reliability, customer service, and overall service quality. This information helps ensure that waste collection services remain consistent, responsive to community needs, and aligned with public health, environmental standards, and regulatory requirements.

Additional Fiscal Information

The Department of Environmental Health has incurred \$30,419 in costs for the review of the Annual Performance Reports, including County staff time and contracted consultant time.

February 25, 2026

County Administrative Center
Board of Supervisors
4080 Lemon St, 5th Floor
Riverside, CA 92501

Subject: Annual Performance Report, Burrtec Waste and Recycling

As noted in the Franchise Agreement for Solid Waste Collection Service (Agreements), Section 8.5, the Annual Performance Report to the Board of Supervisors is a key component of our franchise agreement and rate application.

In 2025, our contract programs were defined by strategic alignment and the successful community-wide integration of Recycling Programs, with a specialized focus on Organics Recycling. Working closely with your team and local stakeholders, we successfully transitioned from initial SB 1383 planning to active, large-scale implementation. Through this robust partnership, Burrtec has provided critical waste, recycling, and organics services that have significantly enhanced the community’s ability to divert materials from landfills, directly supporting the County’s long-term environmental objectives.

Looking toward 2026, we remain deeply committed to supporting Riverside County waste departments and our local business and residential sectors as we finalize our organics recycling initiatives. Our collaborative efforts this year will shift to focus on rigorous program monitoring and reporting, alongside your internal teams, to ensure full compliance and operational efficiency. Furthermore, our community strategy will shift from initial implementation toward sustained education and outreach, empowering residents and businesses to become active, informed participants in our shared environmental mission.

For your ease, we have included a snapshot of the programs and services that are widely used by our Riverside County community:

Program Description	Quantity (Annual 2025)
# of Residential Customer Accounts	11,920
# of Commercial Customer Accounts	633
Tons of Dry Recycles Collected	2,428.17
Tons of Dry Recycles Diverted	2,428.17
Tons of Organics Collected	2,761.09
Tons of Organics Diverted	2,761.09
Bulky-item Residential Pickup	3,481 bulky items collected
Mattresses Recovered	568 mattresses collected
White Goods (Metal Recycling)	786 metal goods collected
Used Oil Residential Pickup	22.5 gallons
Complaints Received and Resolved	0, SB 1383 Complaints received by Burrtec
Community Clean-ups	1/18, 1/25, 2/1, 2/15, 3/1, 3/8, 4/25, 10/11, 10/18
Outreach Activities	1,239 actions in 2025
Potential Challenges	No potential challenges currently.

We are grateful for the opportunity to provide you with waste, recycling, and organics services and look forward to the years to come.

If you have any questions about this overview, please do not hesitate to contact me at forlett@burrtecdesert.com.

Sincerely,

Frank Orlett

Vice President

CR&R Incorporated **Riverside County 2025 Annual Performance Report**

Dear Board of Supervisors:

As required under Section 8.5 of our current Unincorporated Riverside County Franchise Agreements, CR&R Incorporated (CR&R) respectfully submits the following Annual Performance Report.

Summary Tables

In an effort to make this report easier to follow and read, we have summarized the relevant information within the attached tables. These tables include the following information for each franchise area:

- Riverside County Operational Statistics (Missed Pick Up Report, Complaint logs)
- Customer Count 2025
- Diversion Reports 2025
- Riverside County Community Clean-Ups Tonnages
- Riverside County Outreach Activities (Direct Contact with Commercial Customers)
- Events Attended in Riverside County Unincorporated Areas

Each table illustrates the relevant information for each topic of discussion.

Our Operational Statistics table includes the services made available to our customers, the approximate number of customers serviced, the annual tons collected, the annual tons diverted the number of complaints received as well as the number of complaints resolved. This information is all broken down by franchise area.

Our Community Clean Up table includes the location of the clean ups, the date the cleanup was held, the tons collected, the tons diverted and any other comments relevant to the particular clean up activity. Again, this information is all broken out by franchise area.

Our final table summarizes our community outreach efforts for the year. This table illustrates the type of event or activity that our team participated in, the materials distributed, the approximate number of customers involved in each event or activity and the target outreach goal. All information is broken out by franchise area.

SB 1383 Overview

CR&R has historically taken a very proactive approach with regards to the implementation of SB 1383 regulations in our region. We have also made a significant investment into regional organics infrastructure by developing, designing and constructing one of the world's first large scale commercial Anaerobic Digesters.

Our digester, located in the City of Perris, has been operational since 2016. We have processed a significant amount of volume through our facility, and we have produced tens of thousands of gallons of renewable natural gas and high-grade compost as well.

The County of Riverside has benefited significantly from our AD Facility both locally and internationally. We have held over 300 tour groups over the years. Most major universities and several dignitaries and foreign countries have paid us a visit to learn about the technology we used, the performance of the system and the environmental impact that the plant has had on our region.

Locally, CR&R has assisted the County with the implementation of SB 1383 regulations to implement and maintain compliance. Apart from a few specific residential areas (Gilman Hot Springs and La Cresta) all of our residential County Areas are in compliance with specific SB 1383 required services. La Cresta is scheduled to roll out the recycle and organic carts the final quarter of this year.

Commercial customers have also been addressed by our staff. We have attached our “Report Cards” for Calendar Year 2025 which shows last year’s compliance status with SB 1383. All Areas, apart from 13, are 100% compliant. The specific reasons for non-compliance in 13 are noted below.

- **Area 5 is now 100% compliant.**
- **Area 13 has one non-compliant customer:**
 - **Solv Energy, 25250 Rice Rd. Desert Center (need recycle) are not responding to our extended outreach. County is aware of customer.**

Our hope is to have this customer contacted by the County to issue a NOV as they have subscribed to our service since 8/18/25, but they are consistently on stop service due to non-payment.

CR&R has also completed all the required audits as mandated by the current regulations. We are auditing 5% of the accounts on all routes excluding Areas 8, 9, and 13, which have the waiver. We are working to complete all Tier 1 and Tier 2 Edible Food requirements as well.

It is our understanding that organic Procurement is being handled by the County of Riverside per Ryan Ross from Waste Resources Department.

RE: 2025 PERFORMANCE REPORT FRANCHISE AREA NO. 10

Dear Members of the Board:

INTRODUCTION

This Annual Performance Report for calendar year 2025 is submitted pursuant to the Solid Waste Franchise Agreement for Area No. 10, Section 8.5, page 89.

PERFORMANCE OF PAST YEAR (2025)

Customer & Tonnage Data

(Note, all unit counts as of 12/31/25.)

Residential Services. Residential services consist of the collection of waste from individual dwellings utilizing carts.

- Single Family Dwellings
 - 3438 accounts
 - 4355 annual disposed tons
 - 529 annual mixed recycle tons
 - 36.8 annual organic waste tons
- Multi-Family Dwellings
 - 16 accounts representing 236 dwellings
 - *Note, tonnage included in tons reported for Single Family Dwellings*

Commercial Services. Commercial services consist of the collection of waste generated by business establishments and multi-family complexes from carts and bins.

- Cart Service
 - 8 accounts representing 13 units
 - *Note, tonnage included in tons reported for Residential service*
- Bin Service
 - 67 accounts representing 205 weekly refuse bin pickups and 38 weekly recycle bin pickups
 - 1543 annual disposed tons
 - 84.40 annual recycling tons
 - 0.00 annual organic waste tons
- Temporary Bin Service
 - 9 bins
 - *Note, tonnage included in tons reported for bin service*

Roll-Off Services. Roll-Off services consist of debris boxes utilized by regular subscribers and one-time customers, and stationary compactors utilized by regular subscribers. Diverted materials include source separated green waste, mixed organic waste, and mixed construction, demolition, and inert waste.

- Debris Boxes
 - Disposed waste
 - 237 annual loads
 - 653.3 annual tons
 - Diverted waste
 - 23 annual loads
 - 143.3 annual tons
- Stationary Compactors
 - Disposed waste
 - 85 annual loads
 - 293.9 annual tons

Customer Service

Customer Support. DVD provides bilingual customer service assistance Monday through Friday, 8:00 AM to 5:00 PM from our Coachella Valley headquarters located in Palm Springs via telephone, email, text, chat, and in-person. All messages are responded to by the next business day. Inquiries requiring remedy are resolved the next business day.

Procedurally, DVD customer service representatives complete a work order for all inquiries that require remedy or field check and route the work order to our dispatch office which in-turn directs the work order to the appropriate route truck and/or supervisor. When completed, work orders are updated in the system with the disposition noted. Incomplete work orders are followed up on daily by customer service and with the customer as needed.

In 2025, DVD customer service representatives fielded 159 total inquiries from County Area customers, 138 from residential customers and 7 from commercial customers.

145 (86%) of calls were informational inquiries addressing billing questions and special requests for bulky item pickups. The remaining 14 calls (14%) addressed service-related issues.

No customer complaints were recorded as being attributed to the new rates effective July 1, 2025.

Community Cleanups

Drop-Off Event. In 2025, DVD participated in one (2) community cleanup drop-off events operated by the County. The event occurred on April 19th and October 18th, 8:00 AM to Noon at Bubbling Wells Elementary School, 67501 Camino Campanero, Desert Hot Springs. A total of 4.88-tons of waste were collected in these events. Number of participants not recorded.

Curbside Events. DVD also operated two (2) curbside community clean-up events.

- April 21-25, 5.51-tons collected.
- October 20-24, 4.72-tons collected.

Curbside clean-up collections are limited to two (2) items consisting of bulky items, waste containers, or bundles of plant trimmings.

Document Shredding & E-Waste Recycling Events. In 2025, County residents were invited to participate in a document shredding and E-waste recycling events hosted by DVD in the City of Desert Hot Springs in the Carl May Community Center parking lot, 11711 West Drive, Desert Hot Springs, 8:00 AM to Noon on April 26th and October 25th. The number of participating County Area customers was not recorded. Limits of three (3) standard file boxes and three (3) electronic devices were in place for the event.

Outreach Activities

Newsletter. DVD distributed four (4) bilingual newsletters to all residential and commercial customers on January 1, April 1, July 1 and October 1 via direct mail with billing statements. The newsletters informed customers on a variety of topics including holidays, recycling guidelines, cleanups, document shredding opportunities, e-waste recycling opportunities, proper disposal of household hazardous waste, and resources for additional information.

DVD Website. The DVD website (www.desertvalleydisposal.com) contains up-to-date information about services offered, calendar of events, regulatory matters, online bill pay, etc.

Other Information

Organic Waste Services. DVD incorrectly interpreted the CalRecycle SB 1383 Low Population Waiver as applying to 2,500 Franchise Area No. 10 residential waste generators. This matter was brought to the DVD's attention on September 11, 2025 by the County's representative, Mr. Dave Davis, MSW Consultants, Inc.

On September 23, 2025, DVD submitted an SB 1383 Corrective Action Plan which included the following critical elements:

- September 22, 2025. Reroute organic waste collection routes. **[COMPLETED]**
- September 30, 2025. Written notification to affected properties. **[COMPLETED]**
- September 30, 2025. Distribute organic recycling guides. **[COMPLETED]**
- November 24, 2025. Deliver organics carts. **[COMPLETED]**
- December 1, 2025. Commence collection of source-separated organic waste. **[COMPLETED]**

Billing for 3-cart services commenced January 1, 2026.

Labor Unrest Contingency Plan. DVD prepared and submitted to County a Labor Unrest Contingency Plan on November 20, 2025, as required by Franchise Agreement Section 12.7.

Solid Waste Facilities. Exhibit 7 of the Agreement is being updated reflect current tip fees.

Required Reports. Exhibit 9 of the Agreement lists monthly, quarterly and annual reports required of DVD.

- Monthly Reports.
 - Waiver Verification. Ten waivers were verified in December of 2025. New waiver process in place for 2026 per county staff.
- Quarterly Reports.
 - Quarterly reports were submitted to DEH FAO each quarter. As per request, new submittal process to begin 2026.

Emergency Service Rates. Exhibit 8 of the Franchise Agreement establishes hourly rates for emergency services. DVD's 2026 Rate Adjustment Application includes an adjustment to these rates based upon the 2.9% adjustment for 2025 and a 3.2% adjustment for 2026.

UPCOMING YEAR (2026)

Potential Challenges

Rate Adjustment. Per the terms of the Franchise Agreement, service rates will be adjusted July 1, 2026, per the rate adjustment formula. DVD customer service representatives will be prepared to remind customers that the formula was disclosed and described in the Prop. 218 public protest hearing notice.

Delinquent Accounts. In 2026, DVD intends to submit its delinquent accounts to the County for inclusion in the annual property tax collection procedure. The 2025 delinquent account property tax roll procedure was suspended by County staff who have now assured DVD

that the procedure will be followed in 2026. 2026 will therefore represent the first time DVD has availed itself of this collection method. Special notices approved by the County will be mailed to inform delinquent owners of the procedure and facilitate corrective actions to bring delinquent accounts current.

There are a handful of residents in the County Area that believe solid waste services should be provided at no cost and collection proceedings for delinquent accounts may result in protests before the Board of Supervisors. Without exception, DVD intends to follow the requirements of the Ordinance and Franchise Agreement.

Potential Opportunities

Illegal Dumping. Illegal dumping of waste in the desert has been a persistent problem. The sources of illegal dumping are believed to be (a) properties that generate solid waste that do not subscribe to waste collection services and (b) multi-family complexes that fail to arrange for collections of excess waste generated from move outs. DVD intends to monitor these situations and bring suspected properties to the attention of County Staff.

Outreach. DVD will utilize the quarterly newsletter to keep customers informed about relevant topics, especially proper recycling practices.

RE: Annual Performance Report (January 1, 2025 – December 31, 2025)

Executive Summary

This annual performance report highlights Waste Management's (WM) key accomplishments in 2025 for the County of Riverside across Franchise Areas 1, 3, and 4. The year centered on full SB 1383 implementation for residential and commercial customers, sustained community engagement and education, operational scaling, and continued service reliability. Major milestones include 100% commercial compliance (June 2025) *, completion of residential access Municipal Solid Waste (MSW), Recycling (RCY), and Organics (ORG) services, 15 community cleanups with a 30% diversion rate, expanded curbside bulky collection utilization, and a sub-0.5% average monthly customer complaint rate.

*80 commercial customers are still being reevaluated from previous RCY/ORG waivers.

SB 1383 Implementation Highlights - Community-Driven Environmental Initiatives

Residential Sector

Implementation of Organics Services to the Residential Sector.

Addition of 8 new collection routes, five new trucks and five new drivers to support this effort.

As part of achieving full SB 1383 compliance, WM has ensured that residential customers in Franchise Areas 1, 3, and 4 now have access to MSW, recycling, and organics (MSW/RCY/ORG) services. By year end, WM achieved full compliance for approximately 7,500 residential customers. WM remains on track to reach 100% compliance by June 2026, consistent with the residential compliance plan previously submitted to the County. This initiative required the creation of eight new collection routes and the addition of five new trucks and five new drivers to support the expanded services

Commercial Sector

100% SB 1383 Compliance Achieved (June 2025).

700 commercial accounts were brought into Compliance with over 500 hours of educational training and outreach to these commercial businesses.

In June 2025, WM achieved 100% SB 1383 compliance for all commercial customers across Franchise Areas 1, 3, and 4. At the beginning of 2025, approximately 700 commercial accounts remained out of compliance.

WM
17700 Indian St.
Moreno Valley, CA 92551

Reaching full compliance with this segment requires the launch of four new commercial day routes and the addition of three drivers to support expanded service needs.

To ensure a smooth transition and maintain long-term performance, WM delivered more than 500 hours of recycling education and best-practices training through in-person meetings, on-site technical support, and live webinars.

Community Engagement & Education

Community-Wide Cleanups

15 events, 1.12 million pounds collected, 30% overall diversion rate.

In partnership with the Riverside County Department of Waste Resources, WM conducted 15 community cleanup events across Franchise Areas 1, 3, and 4. WM supported these events by providing front-loader collection vehicles, roll-off bins, and trained drivers to ensure safe and efficient operations. In addition to large bulky items, materials collected included metal, electronic waste, mattresses, white goods, and green waste.

To encourage strong community participation, WM mailed postcards directly to residential customers in the service areas where cleanups were scheduled. These mailers also highlighted WM's enhanced year-round curbside bulky-item collection program, promoting convenient disposal options beyond the cleanup events.

Across all events, WM collected a total of 1.12 million pounds of material, of which 326,000 pounds were recycled.

Curbside Bulky & Abandoned Items Response

31,706 bulky requests, equating to 1.58M pounds collected (equivalent to 5 blue whales!)

Enhanced curbside bulky-item collection continued to expand in 2025, allowing residents to schedule up to four pickups per year. During the performance period, customers submitted 31,706 requests, resulting in the collection of 1.58 million pounds of material.

In addition, WM responded to 104 County service requests for the removal of illegally dumped material from public rights-of-way, collecting approximately 44,000 pounds and helping to restore community cleanliness, aesthetics, and safety.

Community Engagement

15 community MAC meetings attended, 10 HOA community meetings participated, 7 community sponsored events, 3 District Sponsored events. Over 3500 customers were reached through these efforts.

WM
17700 Indian St.
Moreno Valley, CA 92551

WM staff actively engaged throughout the year with Municipal Advisory Councils (MACs), homeowners' associations (HOAs), and various community-sponsored events to share program updates, answer service-related questions, and provide SB 1383 education. In March 2025, all 79,000 residential customers received the Annual Service Guide—delivered by mail or electronically, which summarized available services, outlined recent program enhancements, and reinforced recycling best practices.

2500 commercial customers engaged through digital, phone and in-person

The WM team continued proactive engagement with commercial customers through a variety of outreach channels, promoting recycling best practices, providing training for new staff, and conducting on-site visits to support proper container sizing and material-sorting procedures. These efforts resulted in more than 2,500 customer interactions throughout the performance period.

Social Media and Digital Channels

WM leveraged social media and digital channels to provide ongoing SB 1383 education, recycling tips, and contamination-reduction guidance to residential and commercial audiences.

Customer Service Performance

WM continues to maintain an exceptionally low customer complaint rate, averaging **less than 0.5% per month** across the entire customer base within our collection areas.

During **Quarter 2 of 2025**, we experienced a temporary increase in total complaint volume, reaching **4.2%**, primarily driven by **missed pickups**. The spike was directly related to route adjustments required for the rollout of new **Organics (ORG)** service routes in Franchise Area 3 (FA3). As these new routes stabilized, complaint volumes returned to normal levels

Opportunities and Next Steps:

Continuing SB 1383 education for residential and commercial customers, with an emphasis on reducing contamination and ensuring services are properly rightsized to meet customer needs.

Expand targeted recycling monitoring and on-site technical support to improve diversion performance and support ongoing compliance.

Maintain a flexible, multi-channel outreach strategy—including in-person engagement, phone support, digital communications, and mailed materials—to align programs with evolving regulatory requirements and community expectations.
