

**SUBMITTAL TO THE FLOOD CONTROL AND
WATER CONSERVATION DISTRICT
BOARD OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

ITEM: 14.1
(ID # 29840)

MEETING DATE:
Tuesday, May 12, 2026

FROM : FLOOD CONTROL DISTRICT

SUBJECT: FLOOD CONTROL DISTRICT: Adoption of Resolution of Intent No. F2026-10, Specifying the Intent to Undertake Six Flood Control Projects and Setting a Public Hearing Date Pursuant to Section 18 of the Riverside County Flood Control and Water Conservation District Act, Not a Project Under CEQA, Districts 1, 2 and 3. [\$0] (Clerk to Advertise Hearing)

RECOMMENDED MOTION: That the Board of Supervisors:

1. Adopt Resolution of Intent No. F2026-10, which specifies the intent to pursue six proposed flood control projects, identifies locations and procedures for public review and input, and sets a public hearing for June 9, 2026, pursuant to Section 18 of the Riverside County Flood Control and Water Conservation District ("District") Act;
2. Direct the District to make the Resolution of Intent and Attachment "A" available to the public at the locations specified in the Resolution of Intent in accordance with Section 18 of the District Act; and
3. Direct the Clerk of the Board to publish a copy of the Resolution of Intent in a newspaper of general circulation in accordance with Section 18 of the District Act.

ACTION: Policy

C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Summary

Act 6642 of the State Legislature, Section 18 of the Riverside County Flood Control and Water Conservation District Act ("District Act") requires the Board of Supervisors ("Board") of the District to adopt a resolution specifying its intent to undertake new project(s) and to notice and conduct a public hearing to consider any public objections regarding the proposed projects.

Resolution of Intent No. F2026-10 specifies the District's intent to undertake the following six new projects:

Project Name	Zone	Community	Estimate
San Sevaine Dodd Street Storm Drain, Stages 1 and 2	1	Jurupa Valley	\$13,600,000
Home Gardens – Moody Street Lateral	1	Corona/Home Gardens	\$1,000,000
Bedford Canyon Channel, Stage 1	2	Corona	\$9,100,000
Mockingbird Canyon Stabilization, Stage 3	2	Riverside/Woodcrest	\$64,600,000
Menifee Valley – Azusa Channel	4	Menifee	\$5,100,000
Temecula Creek – Morgan Valley Wash, Stage 3	7	Temecula/Wolf Valley	\$3,700,000

The Resolution of Intent also sets the date for a public hearing on June 9, 2026, identifies how objections can be filed and where copies of the relevant files can be reviewed. Attachment "A" provides an exhibit for each project, showing the general location for construction, a project description and preliminary cost estimate.

Following adoption of the Resolution of Intent, each proposed project will require additional detailed engineering, environmental studies, CEQA compliance determinations and property acquisitions. Prior to construction, each project will be brought back to the Board for additional future approvals.

**SUBMITTAL TO THE FLOOD CONTROL AND WATER CONSERVATION DISTRICT BOARD
OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

The California Environmental Quality Act

Pursuant to CEQA Guidelines Section 15378, the proposed actions are not a "project" under CEQA. The action merely specifies the intent for the District to pursue certain future flood control projects and sets a public hearing date for public input. Additionally, this action is an administrative activity under CEQA Guidelines §15378 and does not commit the District to a definite course of action or any specific project, nor does it authorize any construction or physical development. The action will not result in a direct or reasonably foreseeable indirect physical change in the environment. Any future projects will be subject to separate Board approval and full CEQA review. Therefore, this action does not meet the definition of a "project" under CEQA.

Impact on Residents and Businesses

The proposed projects, if constructed, will result in improved flood protection within the project areas.

Additional Fiscal Information

The District has sufficient budget to pursue the projects listed in Resolution of Intent No. F2026-10. No new taxes, fees or indebtedness is required to pursue these projects.

BOARD OF SUPERVISORS

**RIVERSIDE COUNTY FLOOD CONTROL
AND WATER CONSERVATION DISTRICT**

RESOLUTION OF INTENT NO. F2026-10

**TO PURSUE SIX PROPOSED FLOOD CONTROL PROJECTS AND SETTING A
PUBLIC HEARING DATE PURSUANT TO SECTION 18 OF THE RIVERSIDE
COUNTY FLOOD CONTROL AND WATER CONSERVATION DISTRICT ACT**

WHEREAS, Act 6642 of the State Legislature, Section 18 of the Riverside County Flood Control and Water Conservation District Act ("District Act") requires that the Riverside County Flood Control and Water Conservation District ("District") adopt a resolution specifying its intention to undertake new projects, including the engineering estimates of the cost for each. The resolution must also set the date that the District's Board of Supervisors ("Board") will conduct a public hearing to consider any written and oral objections to the proposed projects; and

WHEREAS, the adoption of this Resolution of Intent and conducting the public hearing required by Section 18 of the District Act are administrative activities that do not constitute a "project" under the California Environmental Quality Act ("CEQA") Guidelines Section 15378; any future construction of these projects will be subject to separate Board approval and CEQA review after detailed engineering and environmental reviews are performed.

NOW, THEREFORE, BE IT RESOLVED, DETERMINED AND ORDERED by the District's Board in regular session assembled on May 12, 2026 that:

1) The District intends to undertake the six projects listed below; an exhibit for each project is included in Attachment "A", which includes a project description and map(s) showing the general location and general construction of each project.

Project Name	Zone	Community	Estimate
San Sevaine Dodd Street Storm Drain, Stages 1 and 2	1	Jurupa Valley	\$13,600,000
Home Gardens – Moody Street Lateral	1	Corona / Home Gardens	\$1,000,000
Bedford Canyon Channel, Stage 1	2	Corona	\$9,100,000
Mockingbird Canyon Stabilization, Stage 3	2	Riverside / Woodcrest	\$64,600,000
Menifee Valley – Azusa Channel	4	Menifee	\$5,100,000
Temecula Creek – Morgan Valley Wash, Stage 3	7	Temecula / Wolf Valley	\$3,700,000

FORM APPROVED COUNTY COUNSEL
BY:  AARON C. GETTIS
DATE: 4-18-26

2) The District will cause a copy of this Resolution and the relevant exhibits from Attachment "A" to be posted for public review at the locations listed below.

All Projects	Online:	www.rcflood.org , under public notices > CEQA/Section 18
	In-Person:	District Office 1995 Market Street, Riverside CA 92501
Zone 1 Projects	In-Person:	City of Jurupa Valley City Hall 8930 Limonite Avenue, Jurupa Valley, CA 92509
Zone 2 Projects	In-Person:	City of Norco City Hall 2870 Clark Avenue, Norco, CA 92860
Zone 4 Projects	In-Person:	City of Hemet City Hall 445 E. Florida Avenue, Hemet, CA 92543
Zone 7 Projects	In-Person:	City of Temecula City Hall 41000 Main Street, Temecula, CA 92590

3) The Clerk of the Board is directed to cause a copy of this Resolution of Intent to be published twice, once at least twenty-one (21) days before said hearing and once fourteen (14) days before said hearing, in a newspaper of general circulation in accordance with Section 18 of the District Act.

4) Written protests against any of the proposed projects must be received by the District at 1995 Market Street, Riverside, CA 92501, c/o Jason Swenson, or via email at section18-comments@rivco.org prior to the public hearing or may be presented and heard at the time and place of the public hearing noted below;

5) A public hearing will be held on June 9, 2026 during the regular meeting of the District's Board of Supervisors that commences at 9:30 a.m., in the meeting room of the Board, 1st Floor, County Administrative Center, 4080 Lemon Street, Riverside, CA 92501, at which time all oral and written objections to any of the projects will be heard and considered.

ZONE 1 PROJECTS

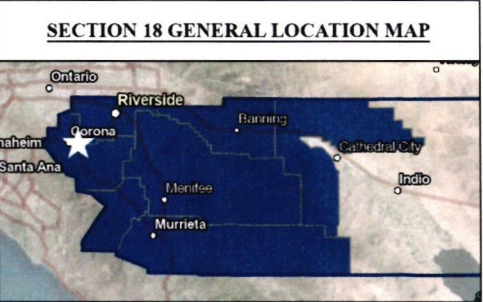

**Home Gardens - Moody Street Lateral Exhibit
San Sevaine-Dodd Street Storm Drain, Stages 1 & 2 Exhibit**

LEGEND

Home Gardens - Moody Street Lateral

—

ENGINEER'S STATEMENT

This is a District-led project proposed to address flooding concerns within Moody Street. There is an existing low within Moody Street where water currently ponds. With no existing outlet these flows travel through multiple residents' properties. Moody Street Lateral would serve as an outlet to convey flows from the low in Moody Street into Estelle Street Storm Drain via underground reinforced concrete pipe. The District intends that the Riverside County Transportation Department will be responsible for operation and maintenance of this facility.

ESTIMATED COSTS - \$1,000,000

San Sevaime Dodd Street Storm Drain, Stage 1

San Sevaime Dodd Street Storm Drain, Stage 2

ENGINEER'S STATEMENT

STAGE 1
 This District-led project proposes to construct the first stage of the Dodd Street Storm Drain system, including approximately 1,780 feet of 84-inch to 90-inch reinforced concrete pipe. The storm drain will collect flows from 60th Street and head downstream to Limonite Avenue, then proceed west along Limonite Avenue for approximately 600 feet to an adequate outlet into the Santa Ana River. The project will help resolve flooding at the sump southwest of Dodd Street and 60th Street and will also enable the District to pursue the more extensive Stage 2 project, which will extend flood protection further north along Dodd Street. The District will be the responsible for operation and maintenance of the facility.

ESTIMATED COSTS - \$5,500,000

STAGE 2
 This District-led project proposes to construct approximately 5,290 feet of 60-inch to 72-inch reinforced concrete pipe to alleviate flooding along Dodd Street. The storm drain will collect flows just north of Jurupa Road and convey it south to 60th Street where it will tie into the San Sevaime Dodd Street Storm Drain, Stage 1 project, which ultimately outlets to the Santa Ana River. The District will be responsible for operation and maintenance of the facility.

ESTIMATED COSTS - \$8,100,000

Mockingbird Canyon Stabilization, Stage 3 Exhibit**

SECTION 18 GENERAL LOCATION MAP

ENGINEER'S STATEMENT

This District-led project proposes to stabilize approximately 2,200 feet of Bedford Canyon Wash, located south of Cajalco Road, between Interstate 15 and Temescal Canyon Road in Corona, California. The primary objective of this project is to safely convey the 100-year storm flows in a stabilized system from Interstate 15 northbound freeway to an existing culvert under Temescal Canyon Road in a manner that reduces erosion and sediment deposition generated in the wash. Additionally, the project will aim to accommodate space for the future Butterfield Overland Trail project (constructed and maintained by others). The District will be responsible for operation and maintenance of the channel.

Mockingbird Canyon Stabilization, Stage 3

SECTION 18 GENERAL LOCATION MAP

ENGINEER'S STATEMENT

This District-led project contains roughly two miles of improvements along Mockingbird Canyon Wash from Pennington Place bridge to the Van Buren crossing downstream. The primary objective for this project is to stabilize Mockingbird Canyon Wash and reduce sediment transport and erosion that can damage public infrastructure and adjacent residences. The drainage improvements are anticipated to consist of soil bank protection and grade control structures, with a majority of the bottom left earthen and allowed to revegetate naturally. The project also includes two new crossings, one at Greenview Drive and another downstream for additional residential access. The project will also replace the existing Pennington Place bridge as well as provide an opportunity for a future trail system to be established by other entities. The District will be responsible for operation and maintenance of the facility (not including future trails).

LEGEND
 Menifee Valley - Azusa Channel

ENGINEER'S STATEMENT
 This is a District-led project to the east side of Mt. San Jacinto College - Menifee Valley campus to reduce street and community flooding. This project will collect flows from Menifee Drainage Channel and TR 36852 channel into a proposed large inlet structure. Flows will be conveyed north in the proposed 1,400 feet of open channel then discharge into the existing City of Menifee owned La Piedra Road Culvert, which outlets to Menifee Lakes. The District will be responsible for operation and maintenance of the channel.
