BACKGROUND:

Summary

The City of Jurupa Valley (“City”) has received a \$250,000 grant from the California Department of Resources Recycling and Recovery (“CalRecycle”) to address illegal dumping in the Santa Ana River. Portions of the river corridor within the jurisdiction of the Riverside County Regional Park and Open-Space District (“District”) in the cities of Riverside and Jurupa Valley have experienced ongoing illegal dumping and related activities, including automobile dismantling. These activities have resulted in the accumulation of abandoned vehicles, hazardous materials, and other debris.

These conditions pose risks to public health, degrade water quality, and have contributed to the designation of the river as impaired for bacteria by the Santa Ana Regional Water Quality Control Board. They also threaten sensitive habitat areas that support federally and state-listed endangered species. The District has the staff, expertise, and equipment necessary to remove and properly dispose of these materials.

Through this Funding Agreement for Land Management Partnership for the Santa Ana River (“Funding Agreement”), the City will provide grant funds to the District to carry out cleanup and mitigation efforts, establishing a coordinated approach that benefits both the public and the environment. The Funding Agreement will not be fully executed until it has been approved by both the City and District.

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,
STATE OF CALIFORNIA**

This Funding Agreement is exempt from the California Environmental Quality Act, pursuant to Public Resources Code Section 21080.56, and subject to a statutory exemption granted by the California Department of Fish and Wildlife under Concurrence No. 21080.56-2022-015-R6. Implementation of the agreement will support improved habitat conditions for sensitive and listed species as well as improved water quality. The agreement will not result in significant impacts to sensitive environments or scenic resources.

The Funding Agreement has been reviewed and approved as to form by County Counsel.

Impact on Residents and Businesses

The cleanup efforts will improve public health and safety by removing hazardous materials and debris, while enhancing the appearance and environmental quality of the Santa Ana River corridor. These improvements are expected to benefit residents through a cleaner, safer environment.

Additional Fiscal Information

The Funding Agreement is funded through CalRecycle grant funds awarded to the City of Jurupa Valley. The City's total contribution under the agreement will not exceed \$250,000 over its full term.
